CLIENT GUIDE · 17 OCTOBER 2026

Buy a domain and launch a website

A real purchase from 17 October 2026: search, sign up, verify, add contacts, pay on Stripe, then launch a page.

Narrated · Press Narration on the web page

1 https://registermysite.net/, live with the Apex Strategy page.

OVERVIEW

The path, in order

1. Search in Advanced Domain Search and click Purchase.
2. Create a free account and confirm your email.
3. Add the registrant contact, tick the confirmation box, continue to payment.
4. Check the renewal price and the currency, then pay on Stripe.
5. Publish with HTML Studio, then turn on hosting for your domain.

STEP 1

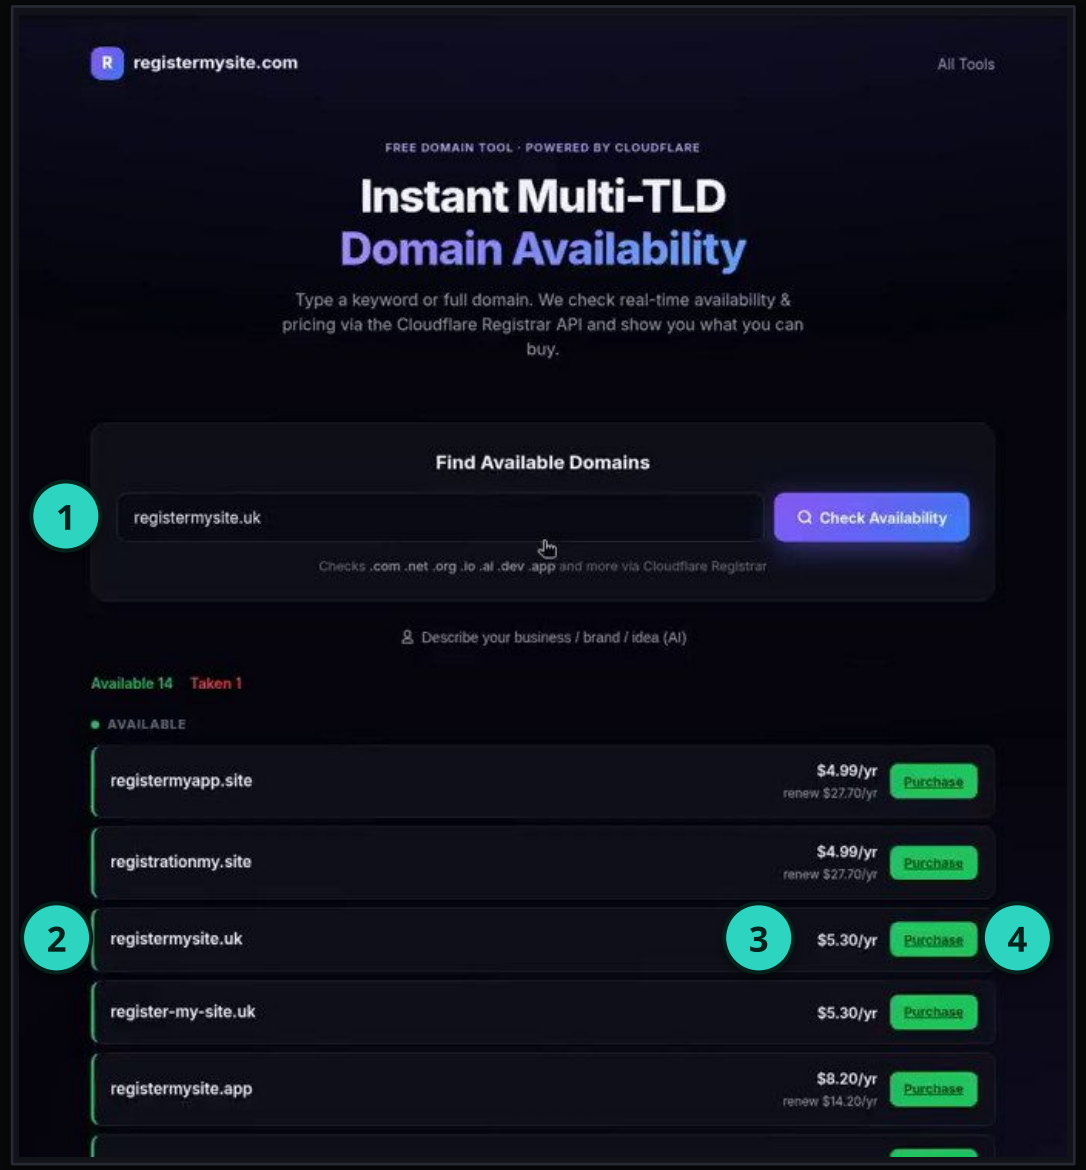

Search for a domain

At advanced-domain-search.registermysite.com we searched registermysite.uk. It was listed Available at $5.30/yr.

1. The search box: registermysite.uk.
2. registermysite.uk in the Available list.
3. $5.30/yr.
4. Purchase.

Tip

Results show other endings too, each with a yearly price and Purchase.

STEP 2

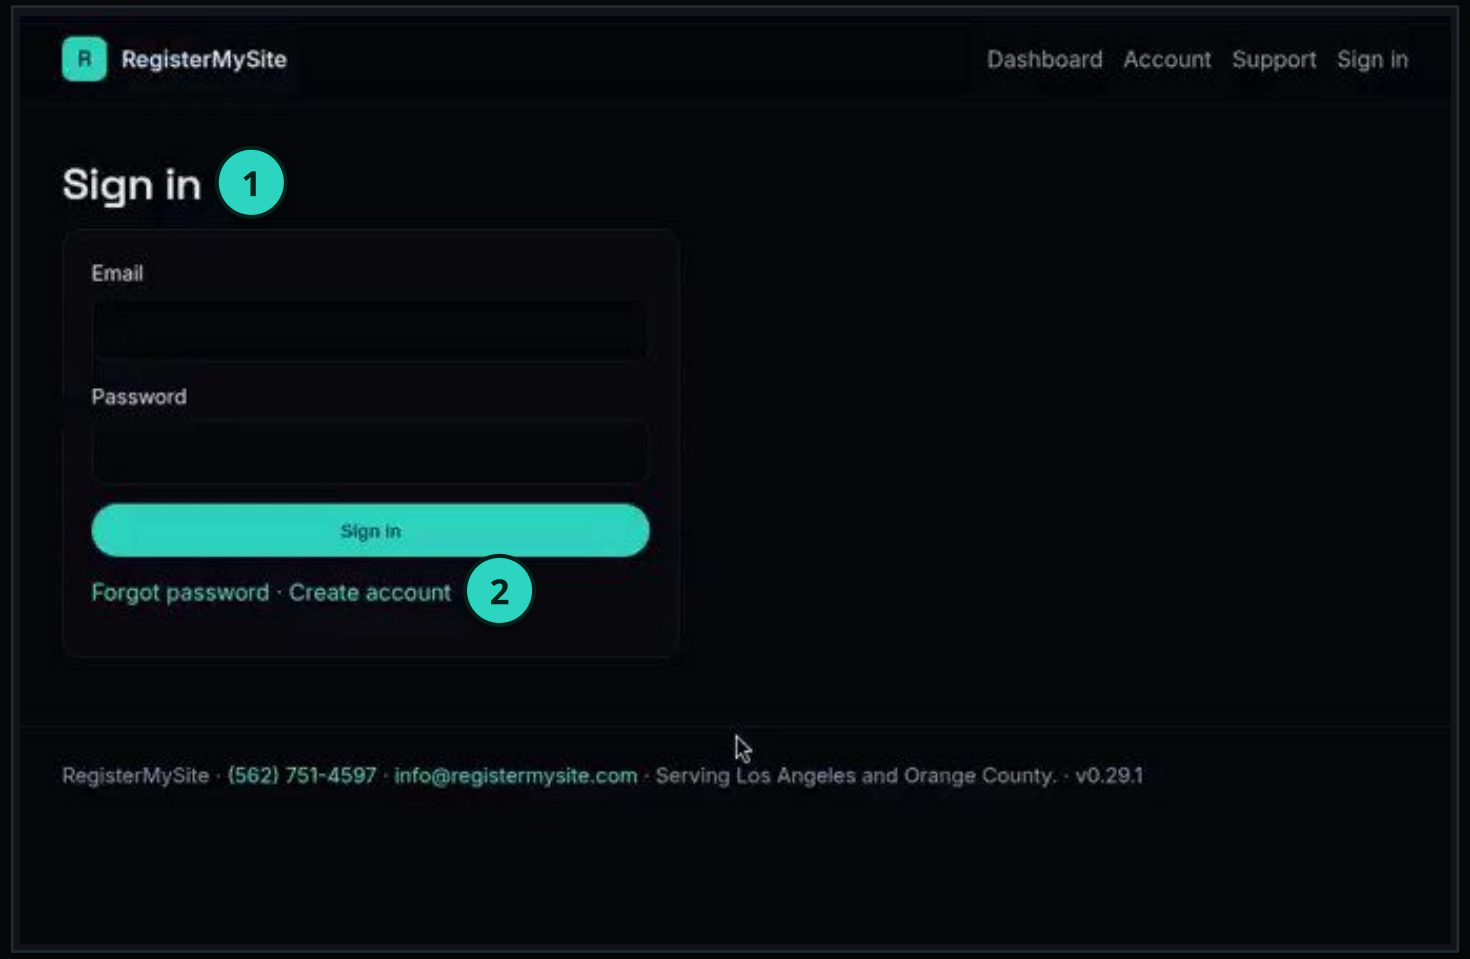

Purchase opens sign in

Purchase opened account.registermysite.com in a new tab, on the Sign in page.

1. Sign in, for existing accounts.
2. Create account, for new customers.

Tip

Already have an account? Sign in here instead.

STEP 2

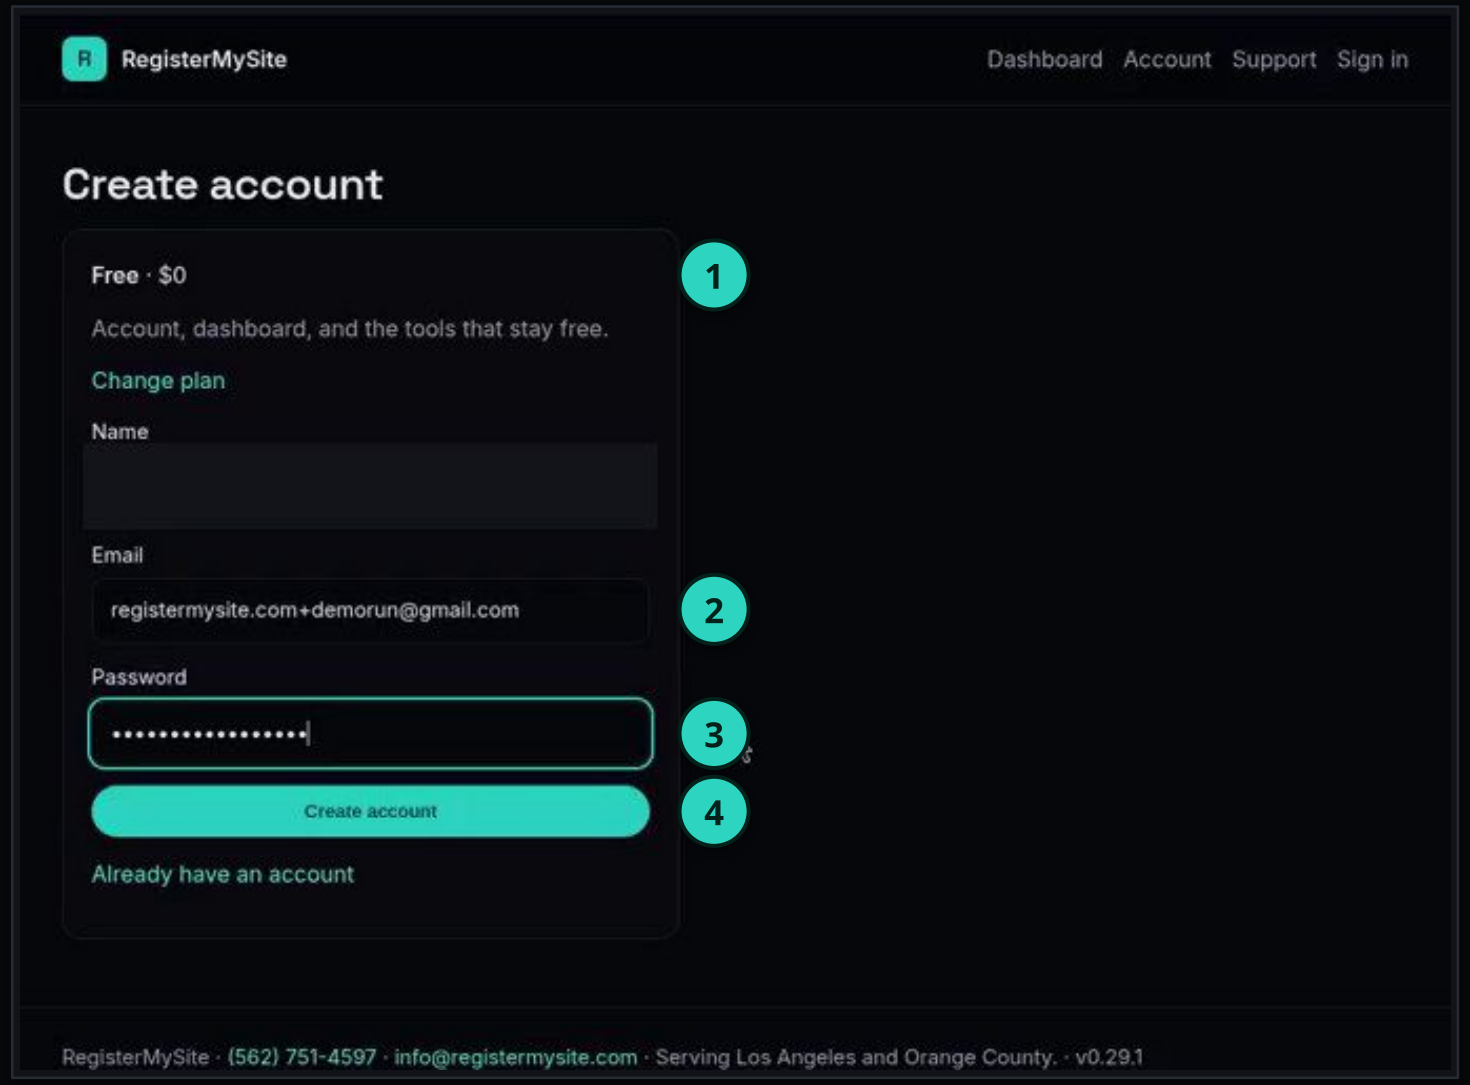

Create a free account

The signup form asks for Name, Email and Password. The plan shows Free · $0.

1. Plan: Free · $0.
2. Email: registermysite.com+demorun@gmail.com.
3. Password (masked).
4. Create account.

Tip

Use an email you can open right now. You'll need it in a moment.

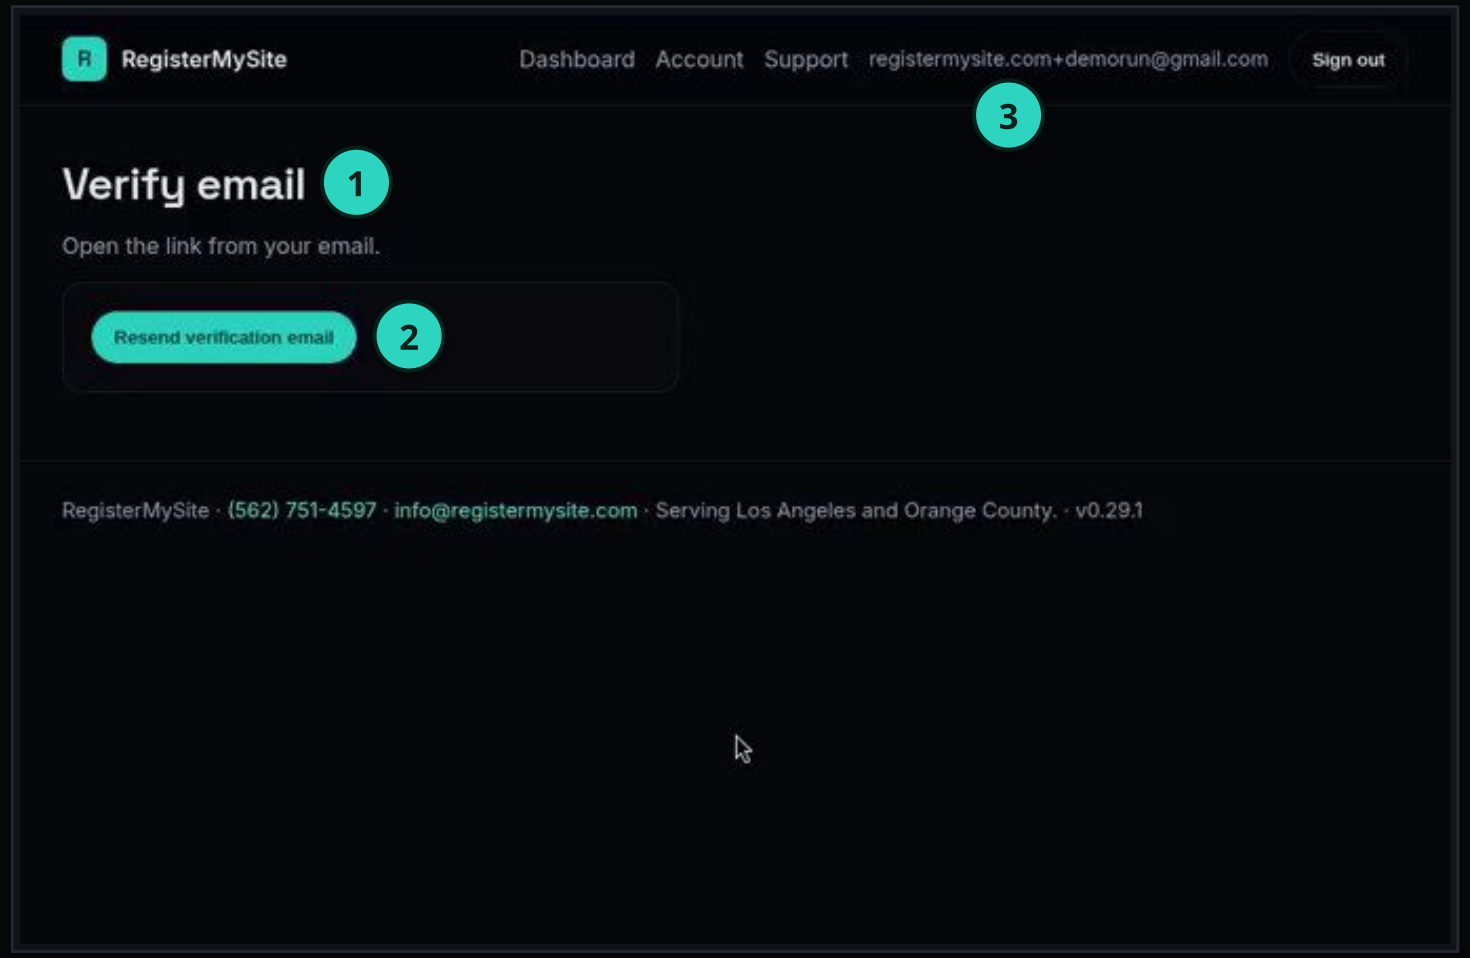

STEP 3

Verify your email

Next is the Verify email page: “Open the link from your email.” You're already signed in.

1. Verify email. Open the link from your email.
2. Resend verification email.
3. Signed in as the new account.

STEP 3

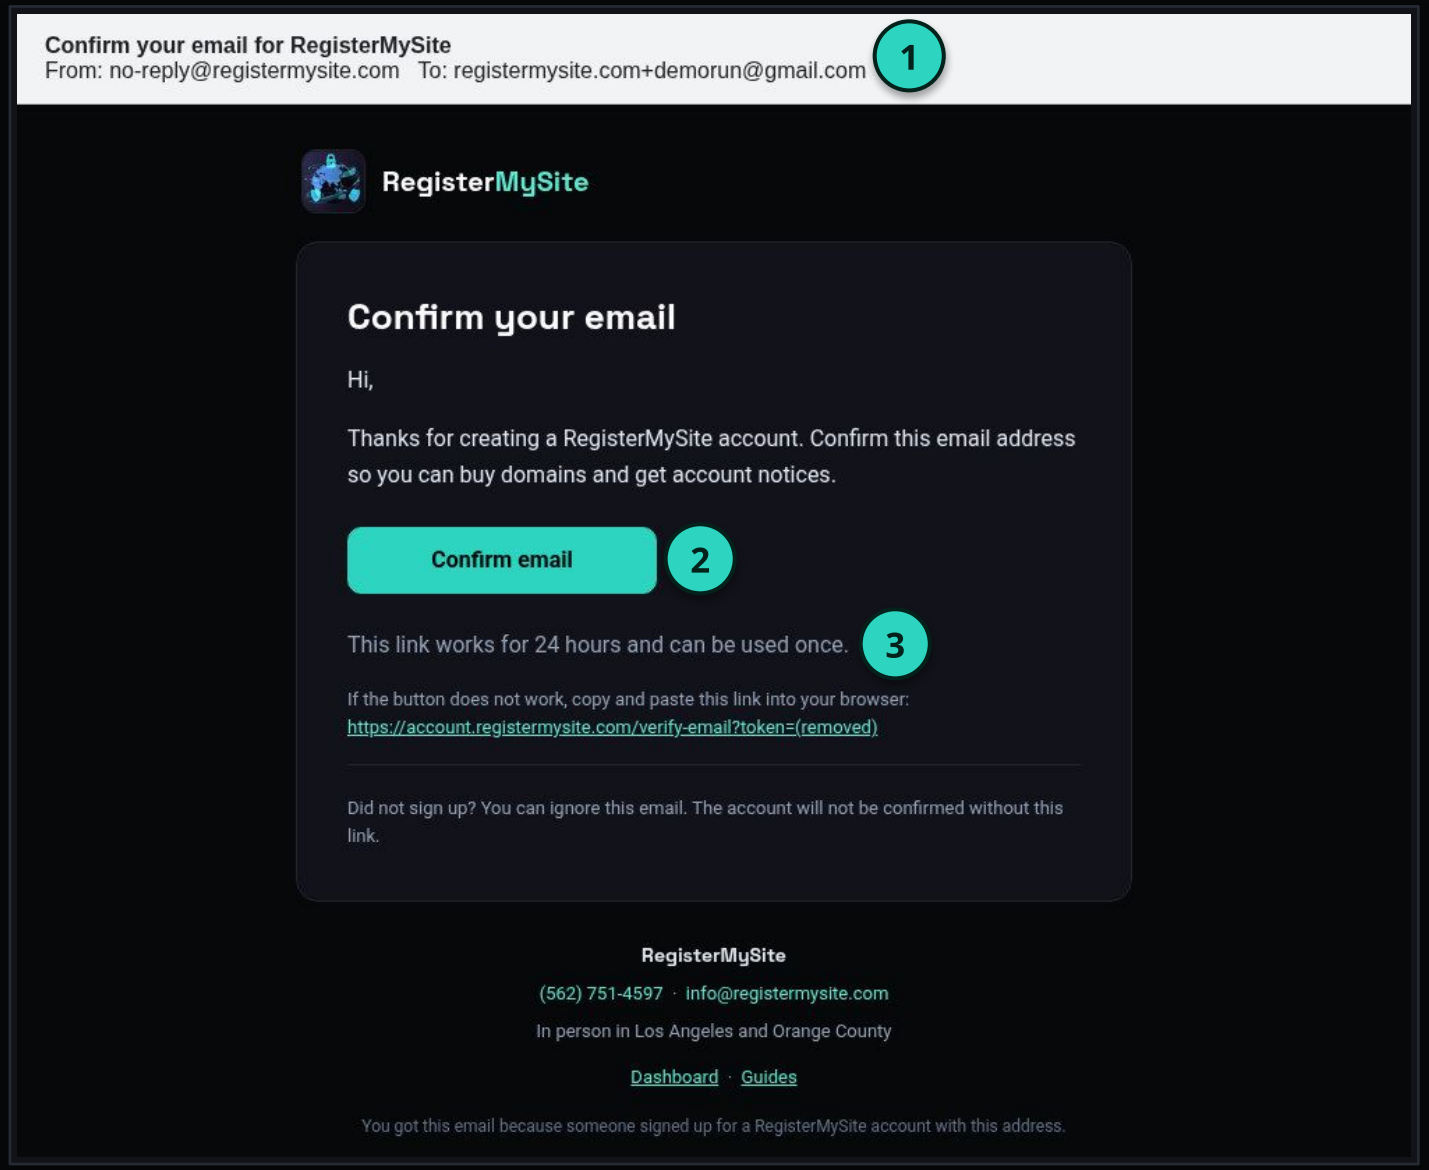

Confirm your email

The email “Confirm your email for RegisterMySite” comes from no-reply@registermysite.com.

1. Subject and sender.
2. Confirm email.
3. Works for 24 hours and can be used once.

Tip

Confirm email takes you straight back to the register page for your domain.

STEP 4

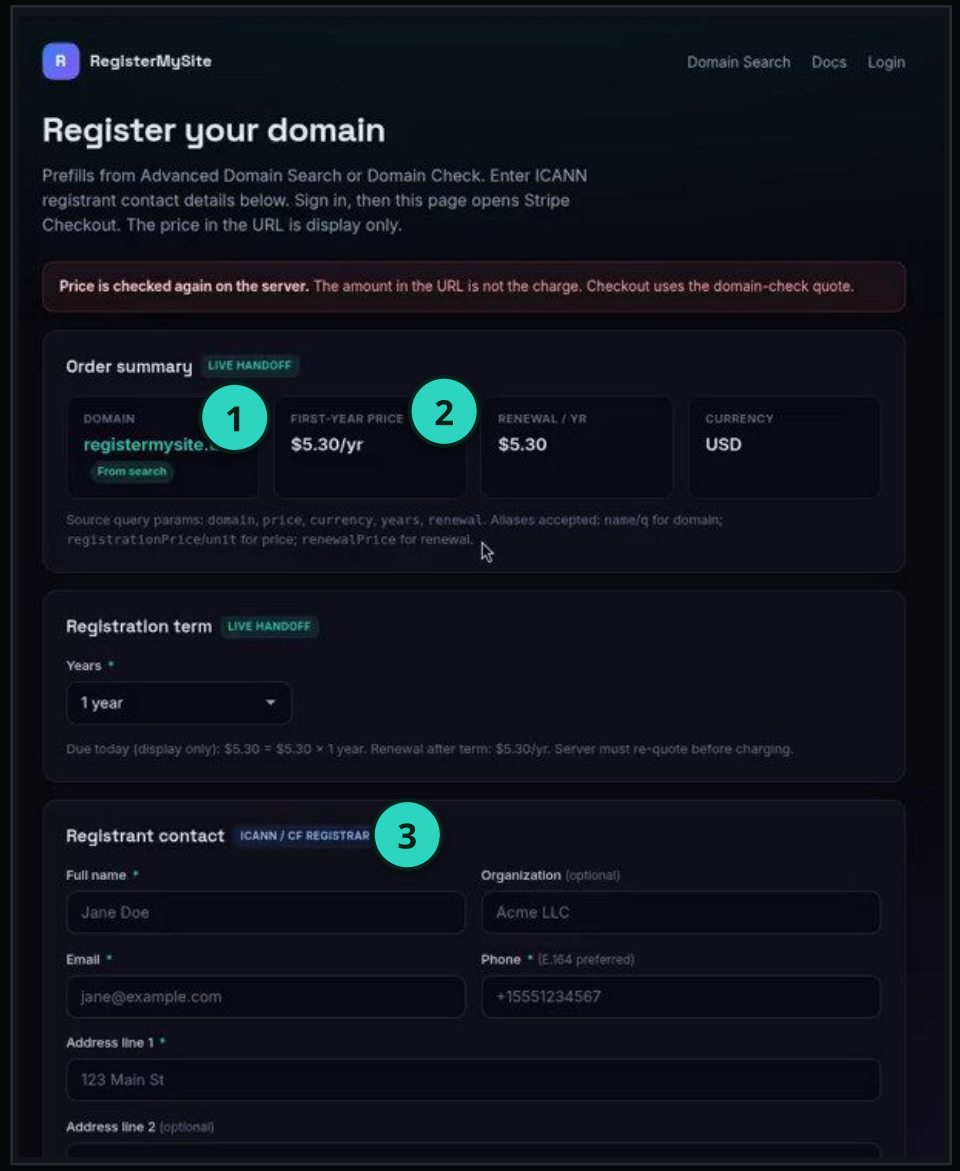

Order summary and contact

registermysite.com/register shows the order summary, then the registrant contact form: full name, email, phone, address, city, state, postal code and country.

1. Domain: registermysite.uk.
2. First-year price $5.30/yr, renewal $5.30.
3. Registrant contact.

Tip

Use your real contact details. They are the legal owner record for the domain.

STEP 4

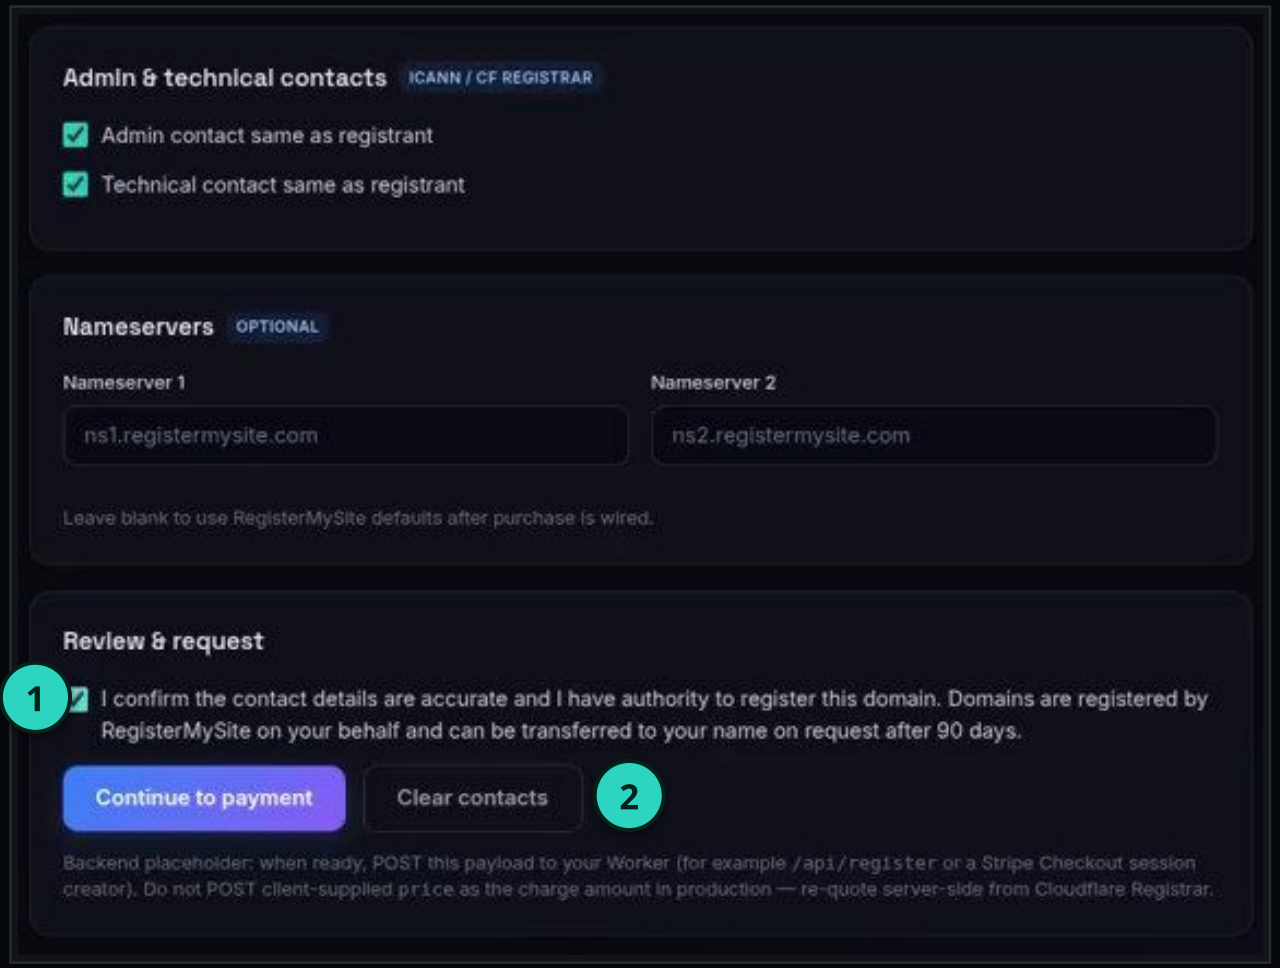

Confirm and continue

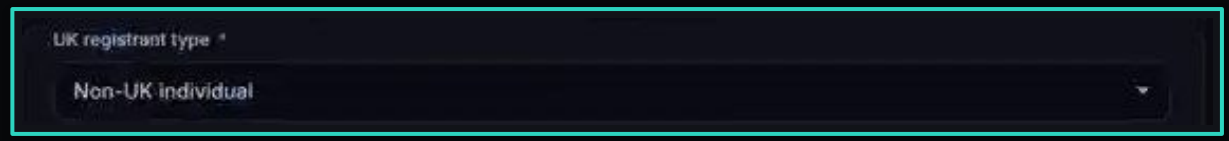

A .uk name also asks for a UK registrant type. Then tick “I confirm the contact details are accurate…” and press Continue to payment.

1. I confirm the contact details are accurate… (required).
2. Continue to payment.

Tip

Inset: the UK registrant type field shown for .uk.

GOOD TO KNOW

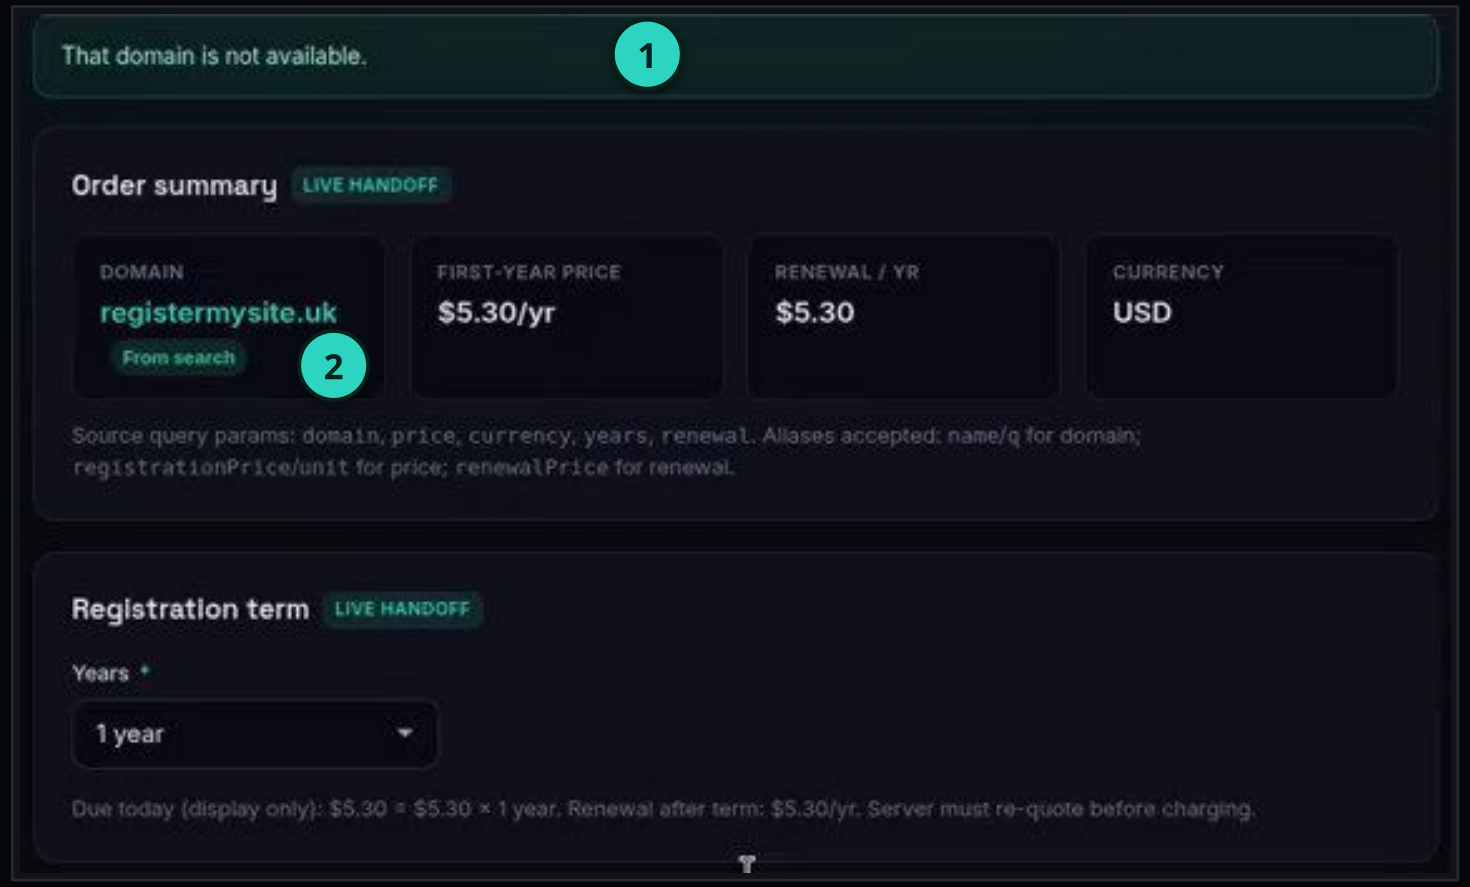

If a domain gets taken

For registermysite.uk the register page answered “That domain is not available.” even though search had listed it.

1. That domain is not available.
2. The domain in the order summary.

Tip

It happens. Head back to search and choose another available name.

TIP

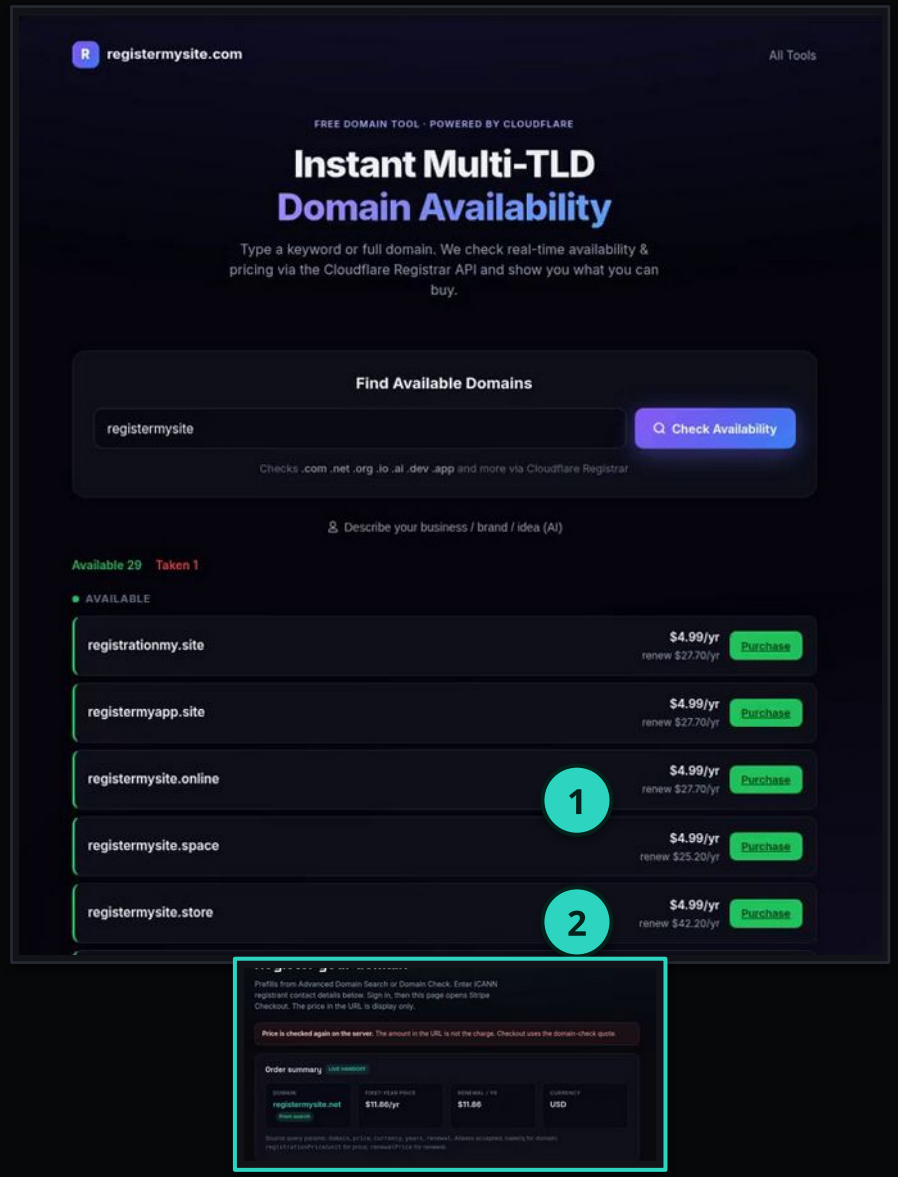

Check the renewal price

Searching registermysite again, we chose registermysite.net at $11.86/yr, renewing at $11.86. The .online and .store names were $4.99, but renew at $27.70 and $42.20.

1. registermysite.online: $4.99/yr, renew $27.70/yr.
2. registermysite.store: $4.99/yr, renew $42.20/yr.

Tip

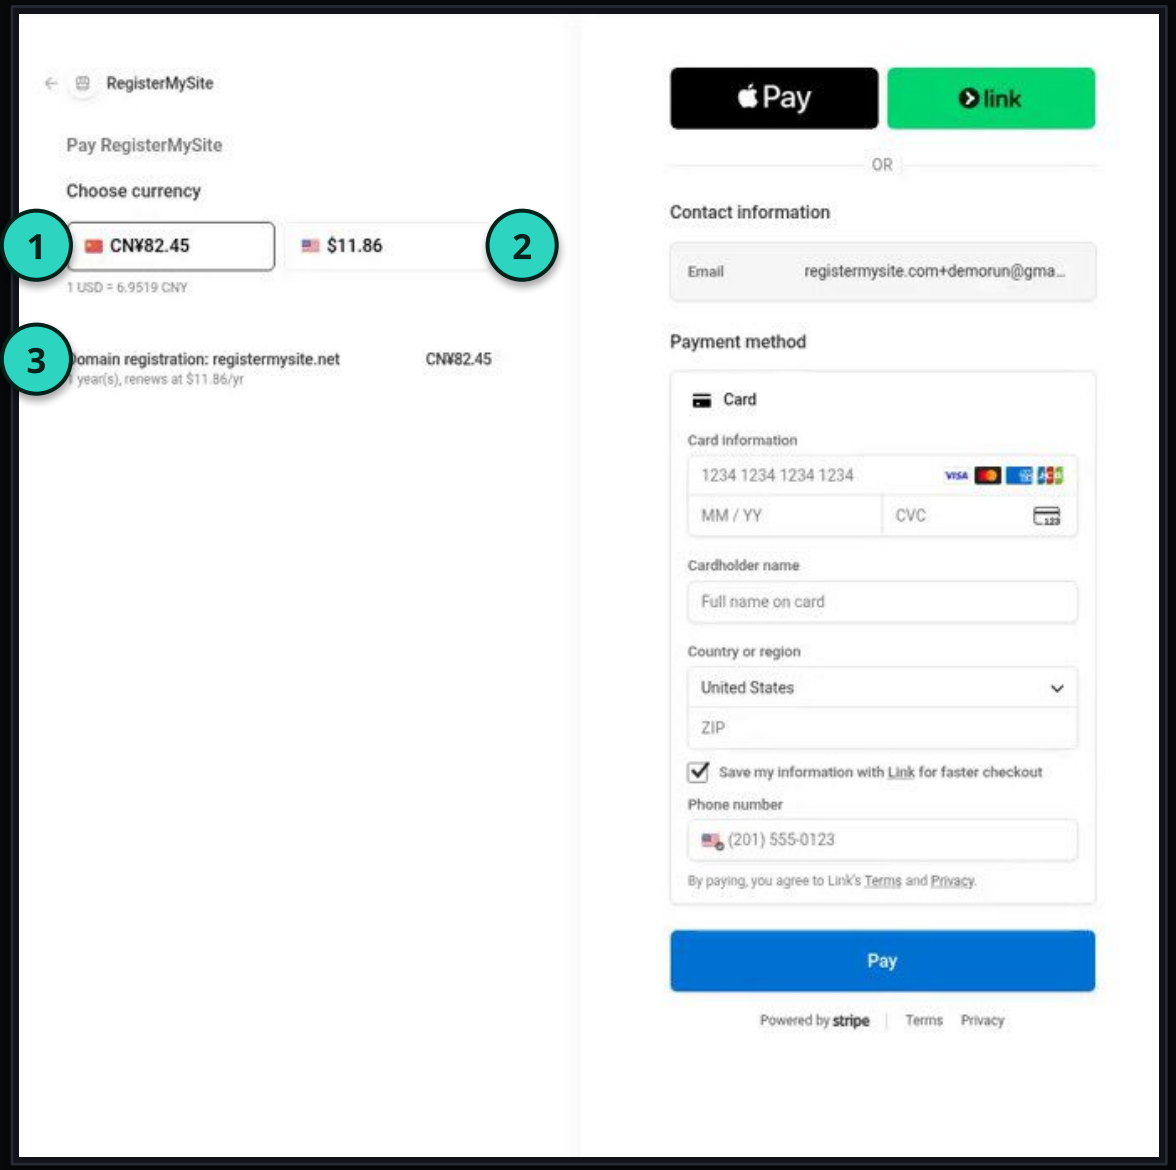

Inset: registermysite.net, first year $11.86/yr, renewal $11.86.

STEP 5

Check the currency

Stripe Checkout showed “Pay RegisterMySite” and the line item for registermysite.net, 1 year, renews at $11.86/yr. It first showed CN¥82.45.

1. CN¥82.45 was selected first.
2. US $11.86: pick this one.
3. Domain registration: registermysite.net.

Tip

Check the currency before you pay. Switching to US $11.86 fixed it.

STEP 5

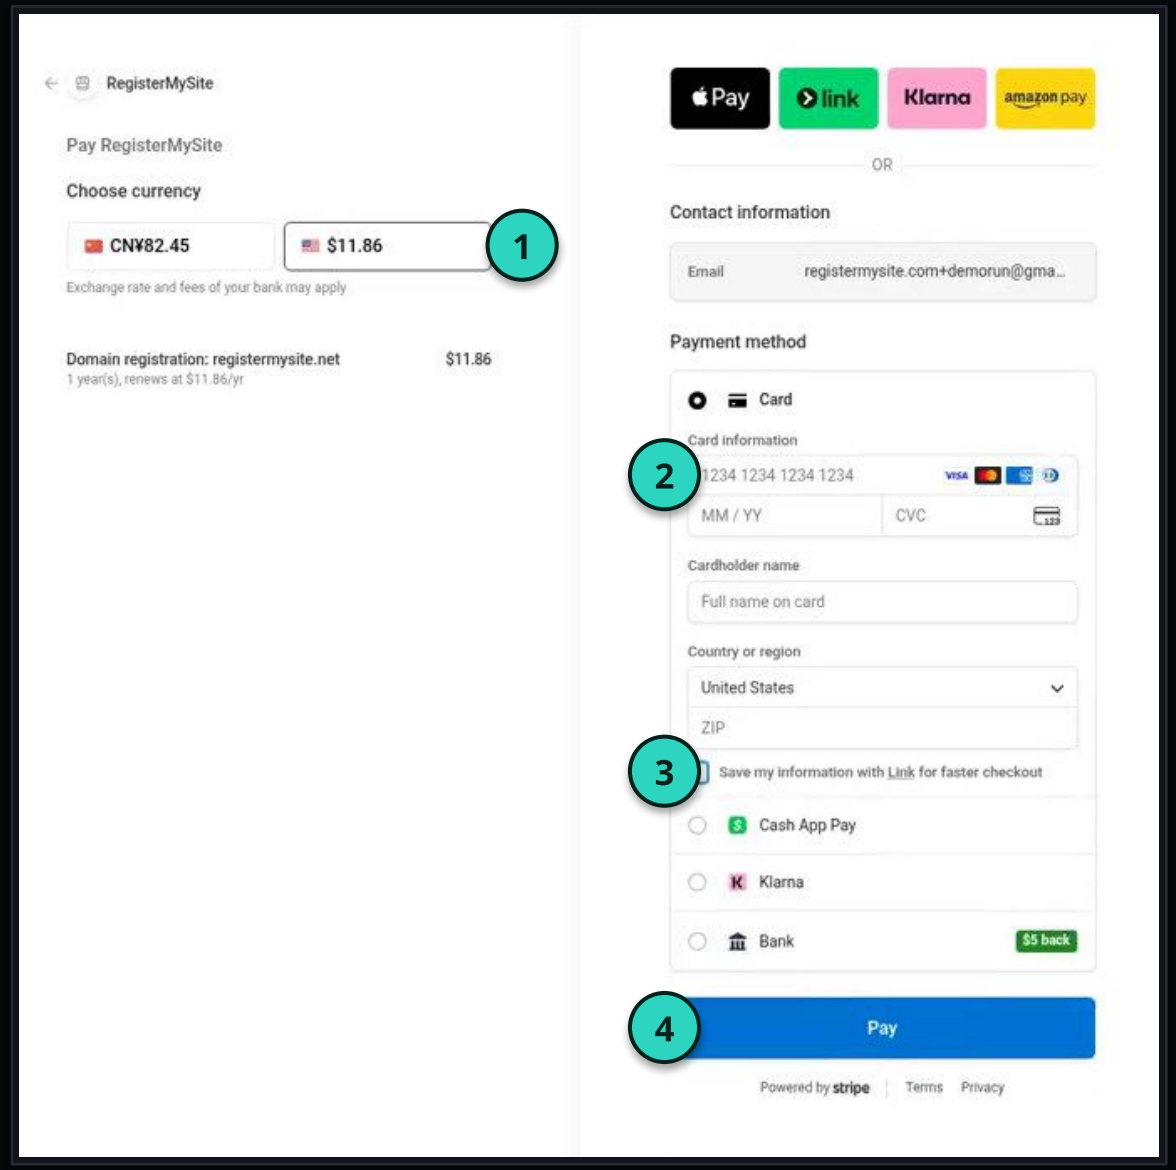

Enter your card and pay

With US $11.86 selected, enter your card details, optionally untick “Save my information with Link”, then press Pay.

1. US $11.86 selected.
2. Card information.
3. Save my information with Link (optional, unticked here).
4. Pay.

Tip

Card entry was not recorded. Never share card details in a screenshot.

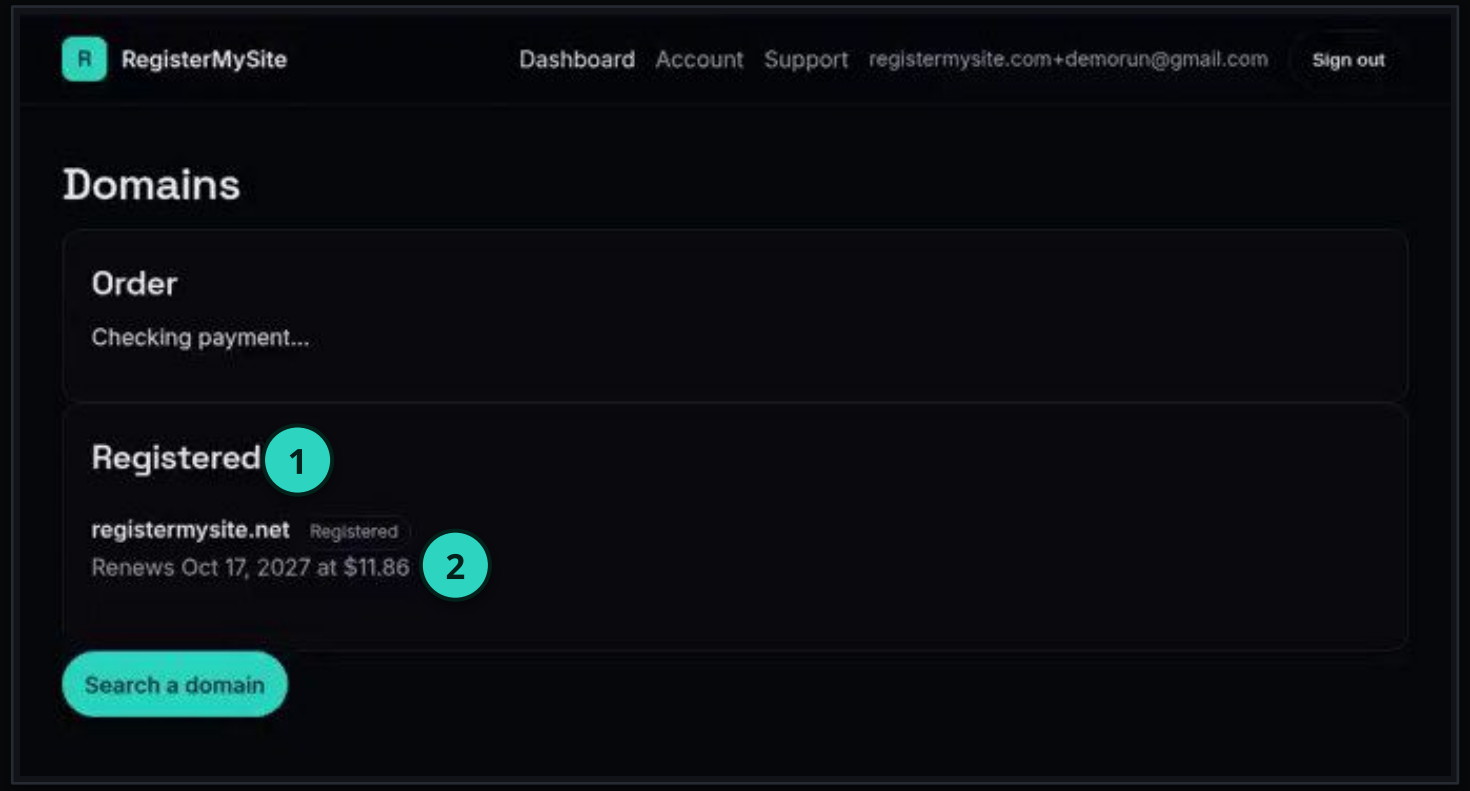

STEP 6

Registered!

Stripe redirected to account.registermysite.com/dashboard/domains: registermysite.net, Registered, renews Oct 17, 2027 at $11.86.

1. registermysite.net, Registered.
2. Renews Oct 17, 2027 at $11.86.

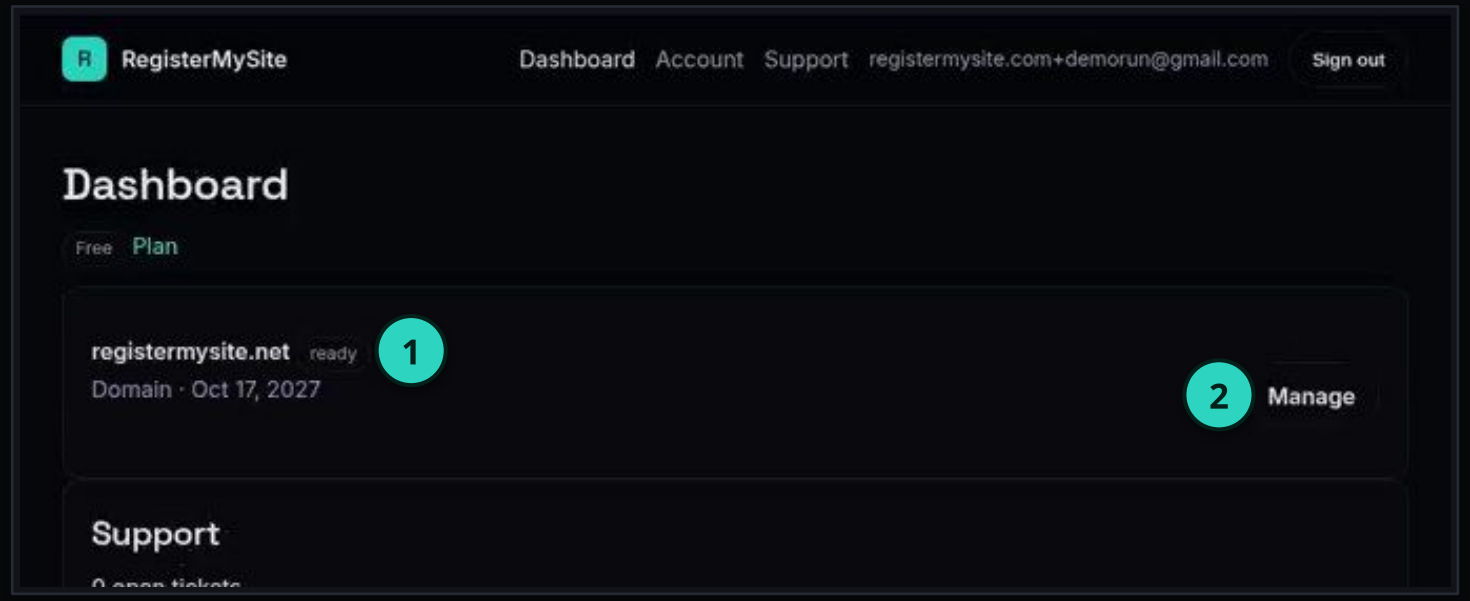

STEP 6

Your dashboard

The dashboard lists registermysite.net as ready, with a Manage button.

1. registermysite.net, ready.
2. Manage.

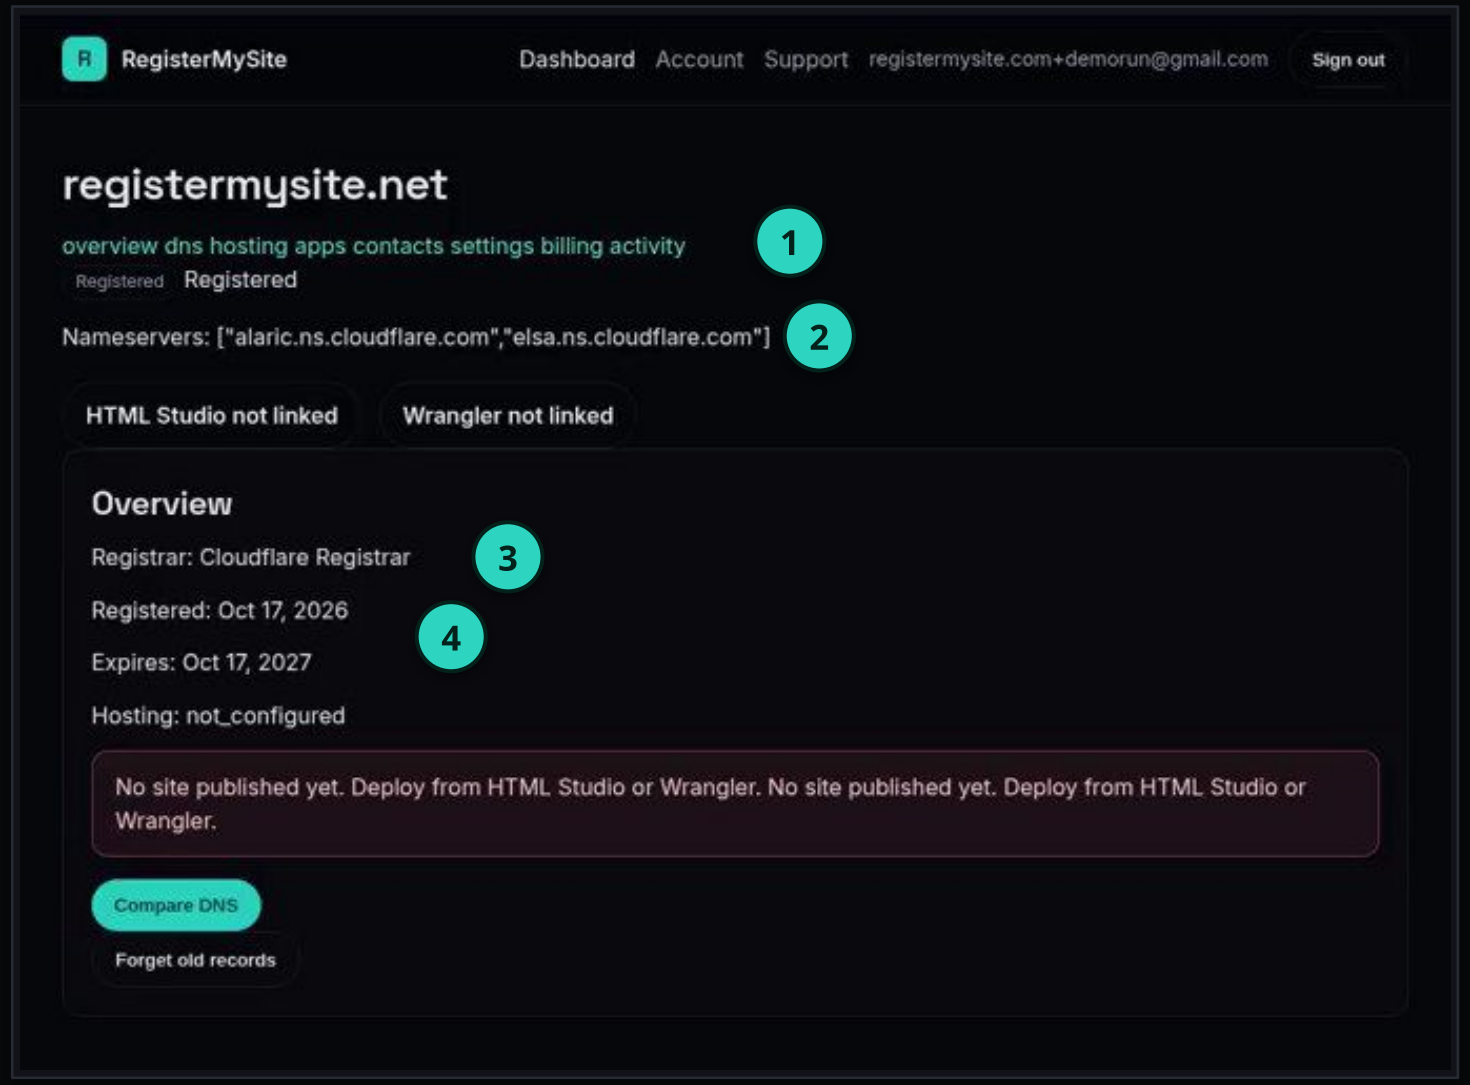

STEP 6

Manage your domain

The Manage page has tabs for overview, dns, hosting, apps, contacts, settings, billing and activity.

1. The tabs.
2. Cloudflare nameservers.
3. Registrar: Cloudflare Registrar.
4. Registered Oct 17, 2026; expires Oct 17, 2027.

STEP 7

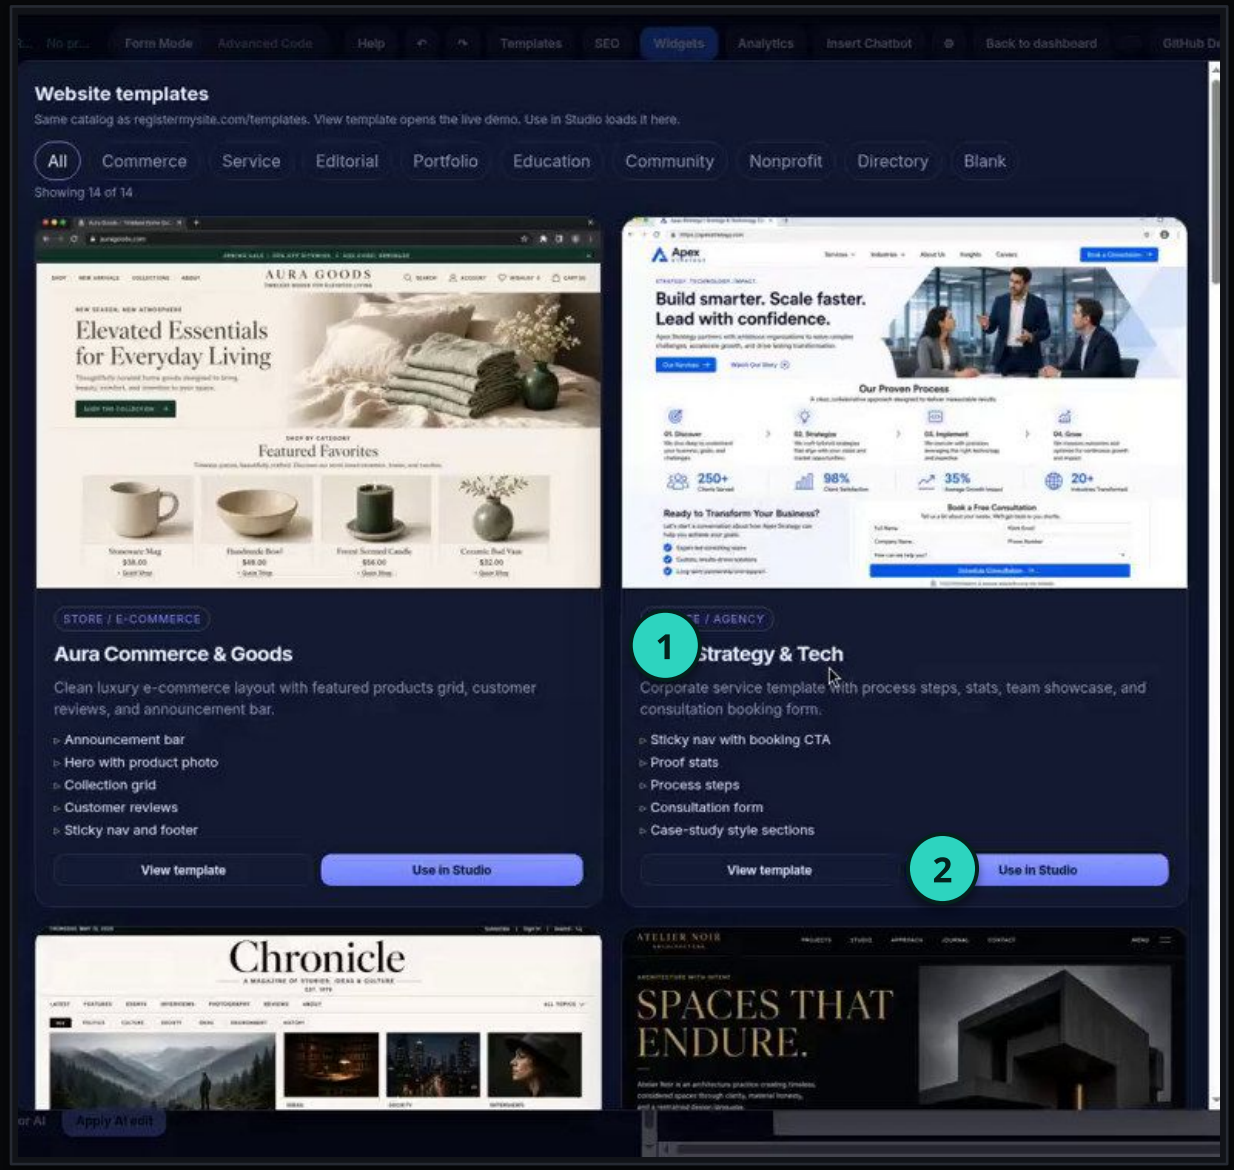

Pick a template

In HTML Studio, signed in with the same account as the dashboard, click Templates. On “Apex Strategy & Tech”, click Use in Studio.

1. Apex Strategy & Tech.
2. Use in Studio.

Tip

Your RegisterMySite login works in HTML Studio too. No second account needed.

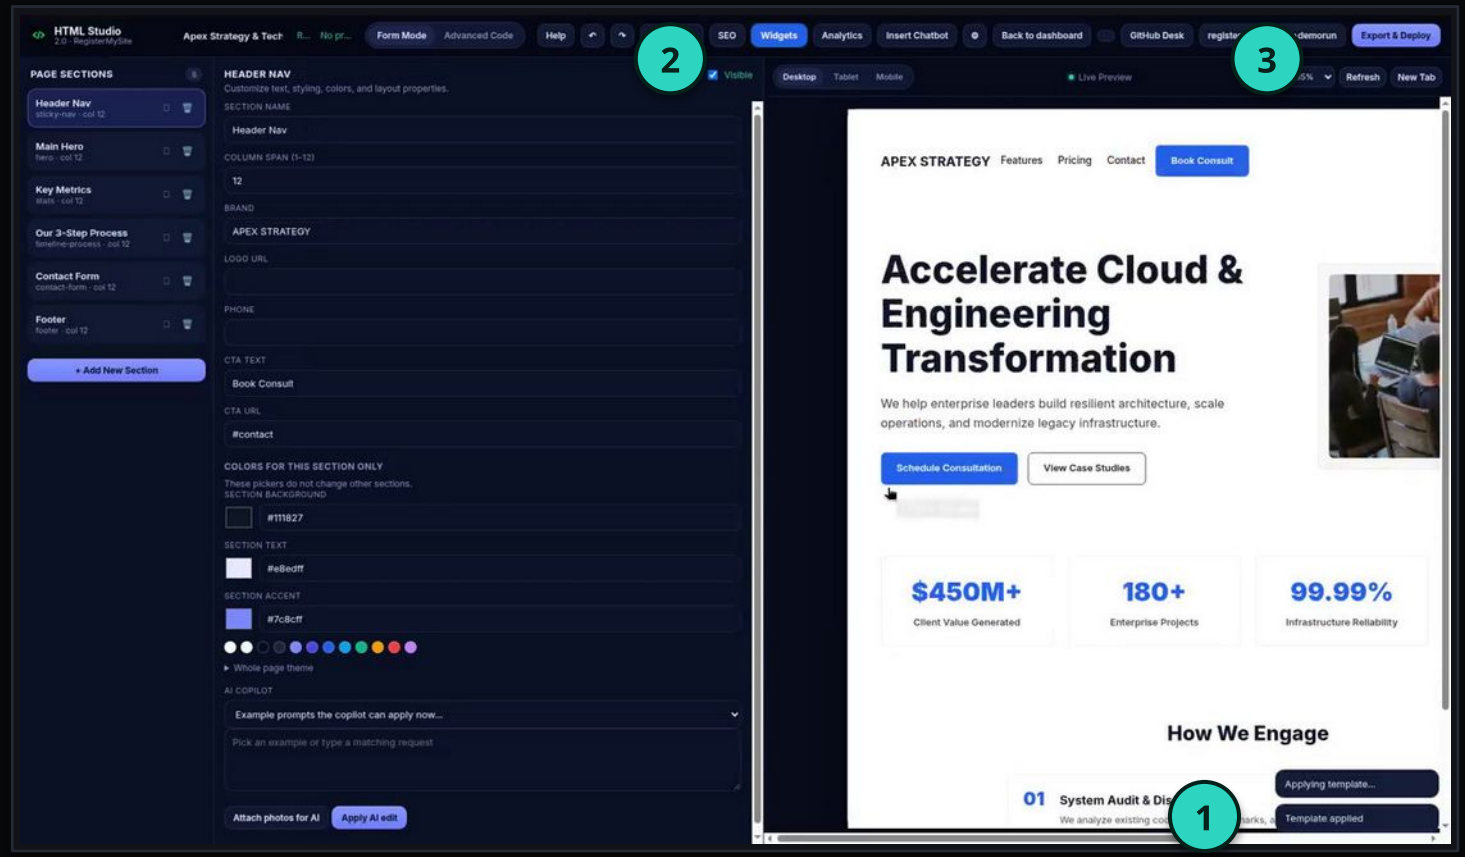

STEP 7

Template applied

“Template applied” appears and the Apex Strategy page loads in the live preview.

1. Template applied.
2. Templates.
3. Signed in as the same account.

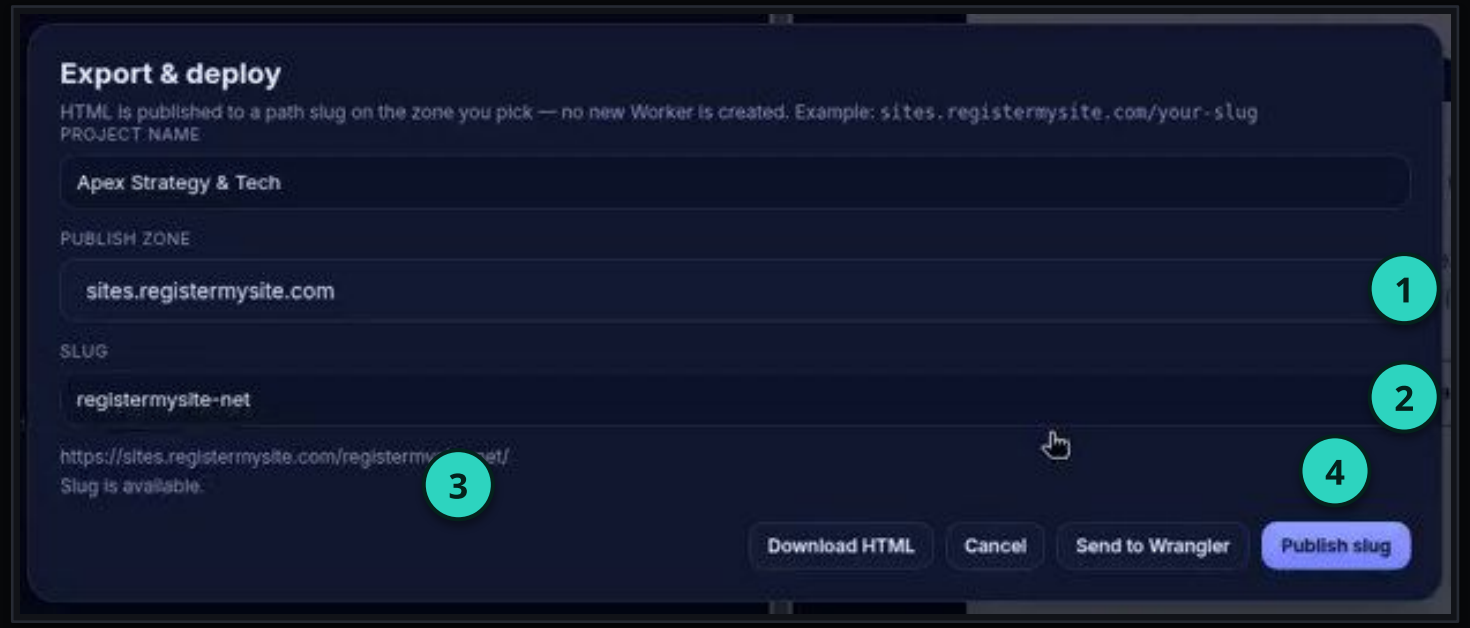

STEP 8

Export & Deploy

The PUBLISH ZONE list now includes registermysite.net alongside sites.registermysite.com. We chose sites.registermysite.com and the slug registermysite-net.

1. Publish zone: sites.registermysite.com.
2. Slug: registermysite-net.
3. Slug is available.
4. Publish slug.

Tip

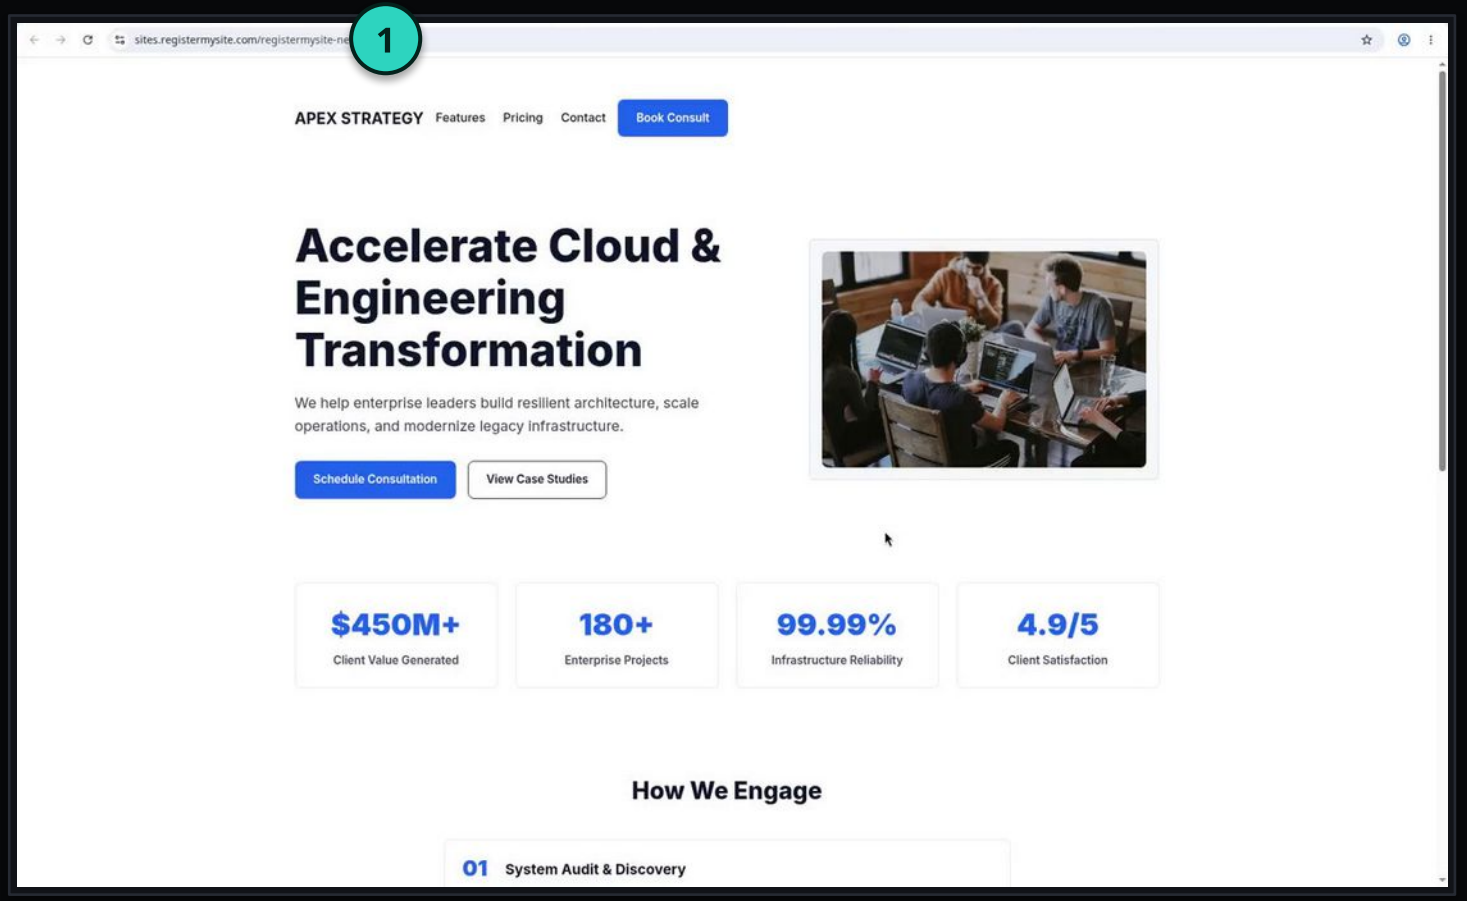

Recommended route: publish to a slug first, then turn on hosting for your domain.

STEP 8

Your preview link

The preview is at https://sites.registermysite.com/registermysite-net/.

1. sites.registermysite.com/registermysite-net/

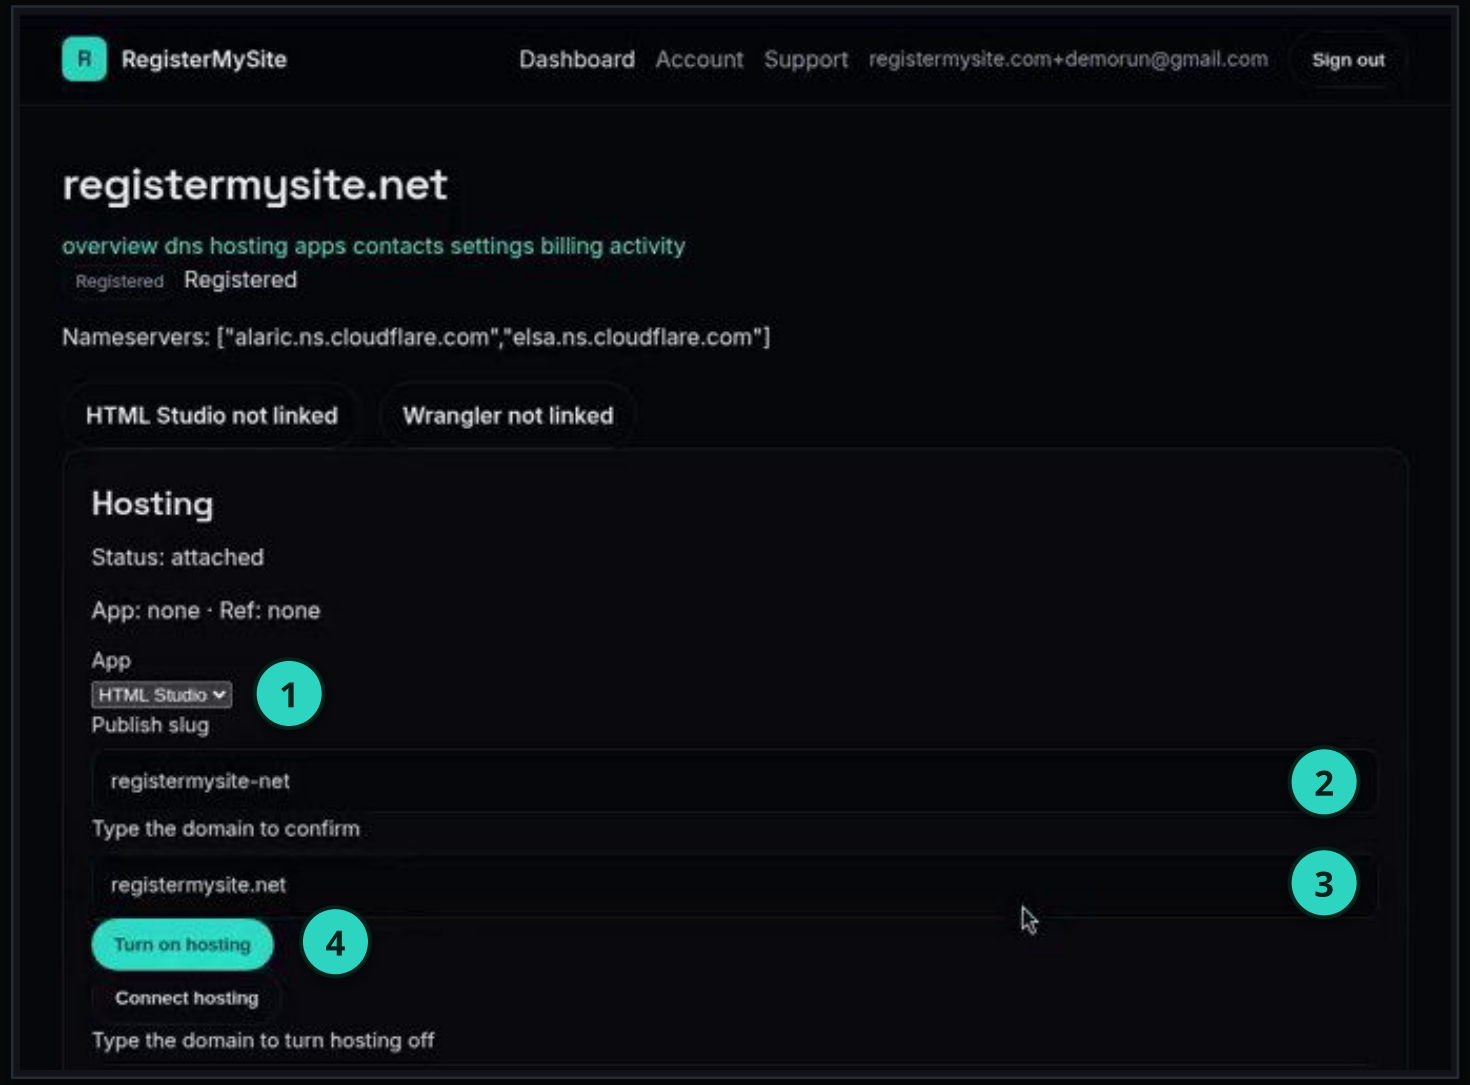

STEP 9

Turn on hosting

In the account dashboard, open the domain and the Hosting tab. Set App to HTML Studio, enter the slug registermysite-net, type registermysite.net to confirm, then click Turn on hosting.

1. App: HTML Studio.
2. Publish slug: registermysite-net.
3. Type the domain to confirm: registermysite.net.
4. Turn on hosting.

STEP 9

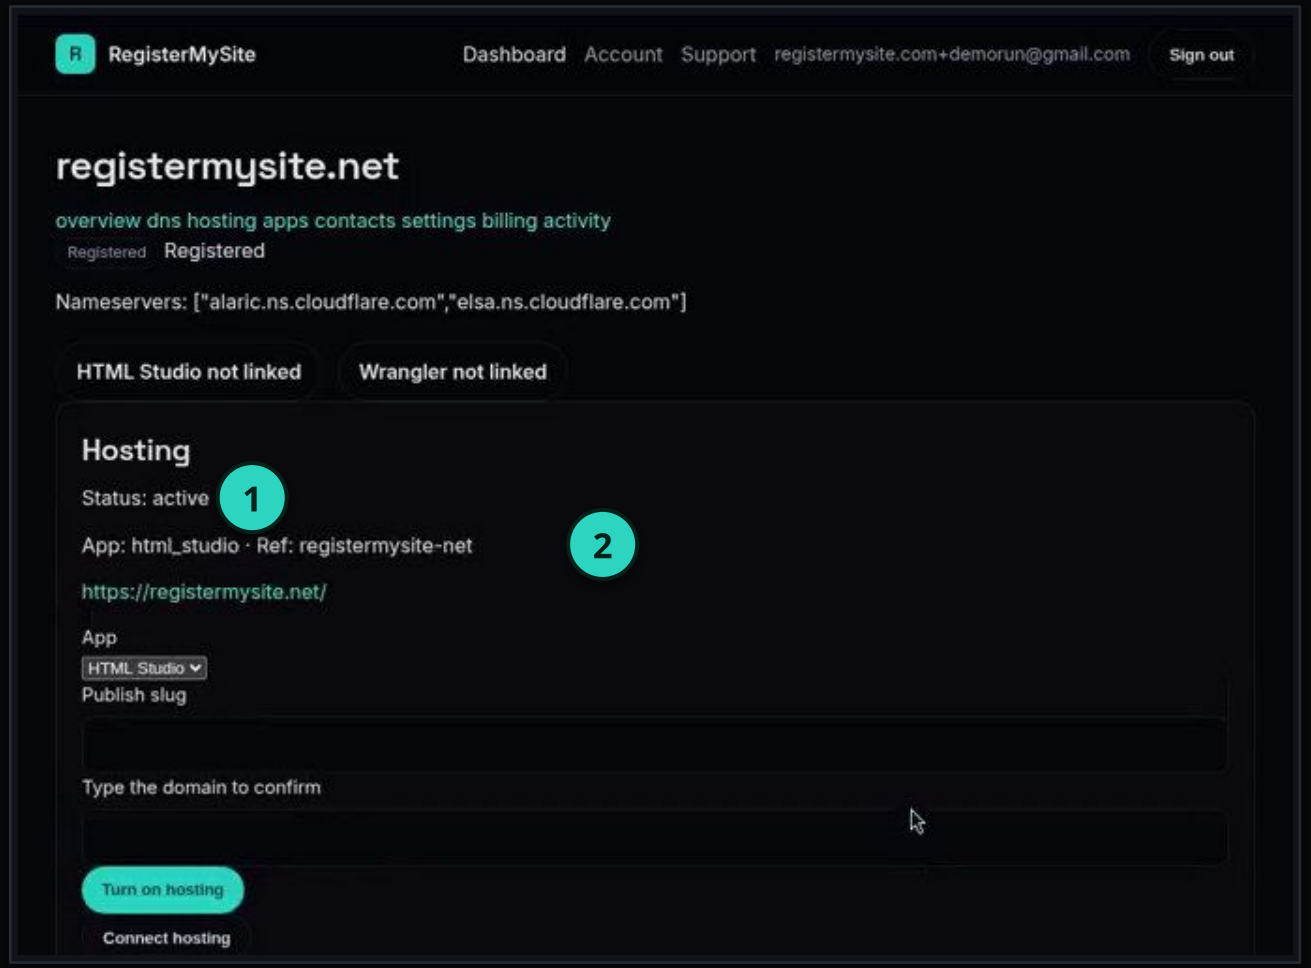

Hosting is active

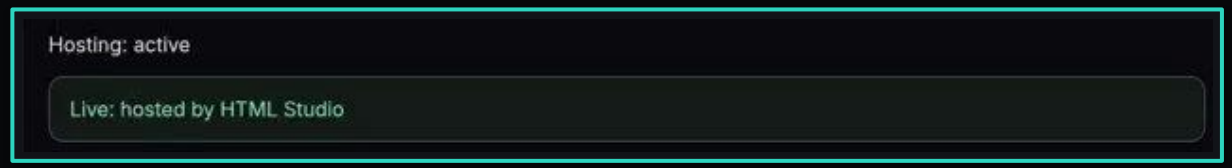

The Hosting panel shows Status: active and App: html_studio · Ref: registermysite-net. The overview shows Hosting: active and Live: hosted by HTML Studio.

1. Status: active.
2. App: html_studio · Ref: registermysite-net.

Tip

Inset: the Overview tab, Hosting: active and Live: hosted by HTML Studio.

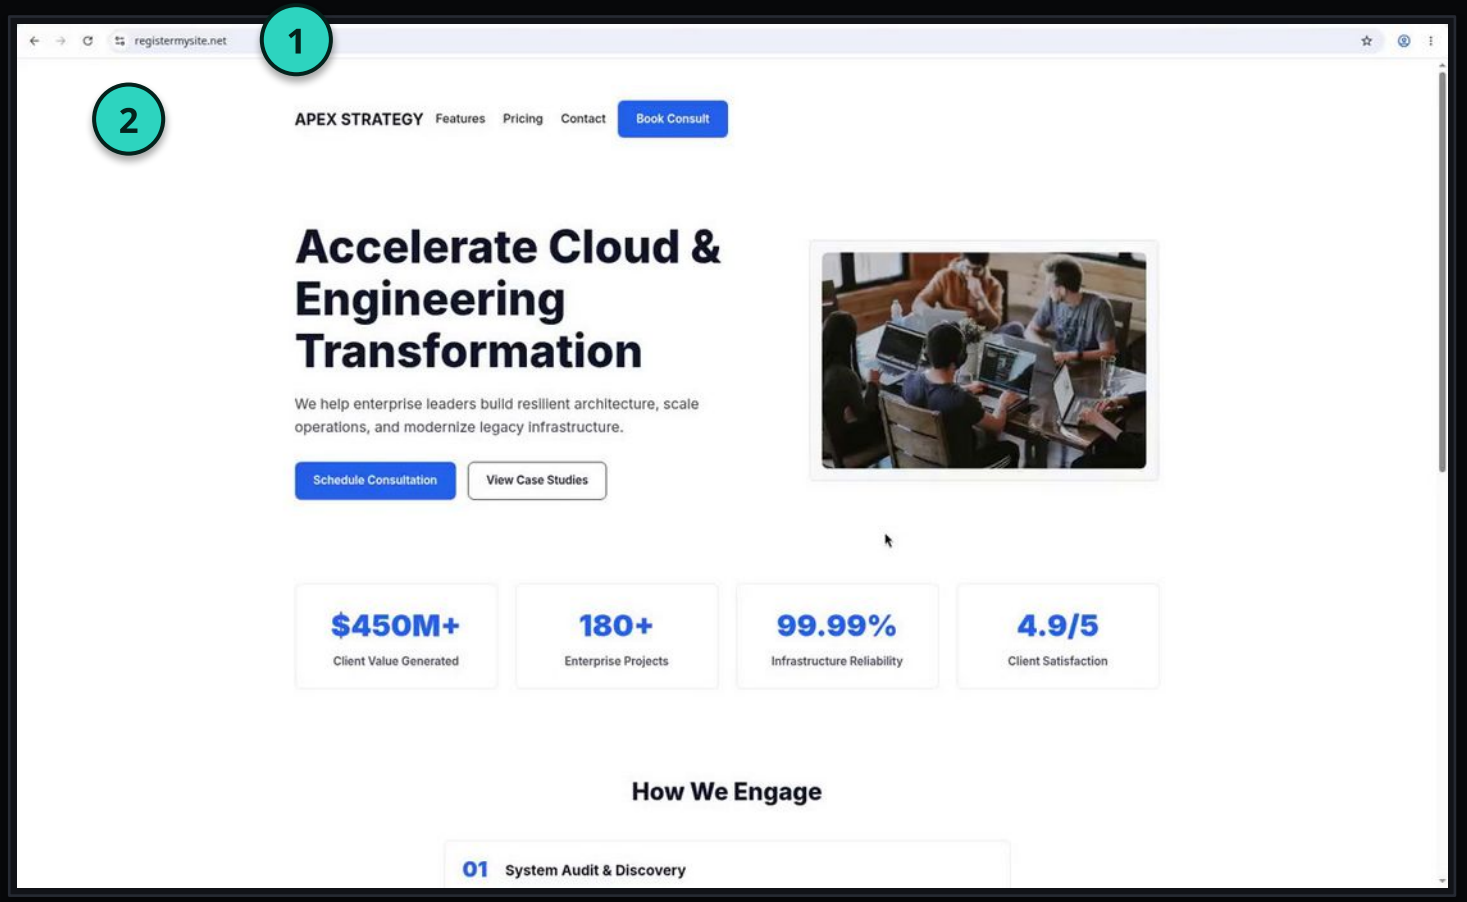

STEP 10

Your site is live

https://registermysite.net/ is live with the Apex Strategy page.

1. registermysite.net in the address bar.
2. The Apex Strategy page.

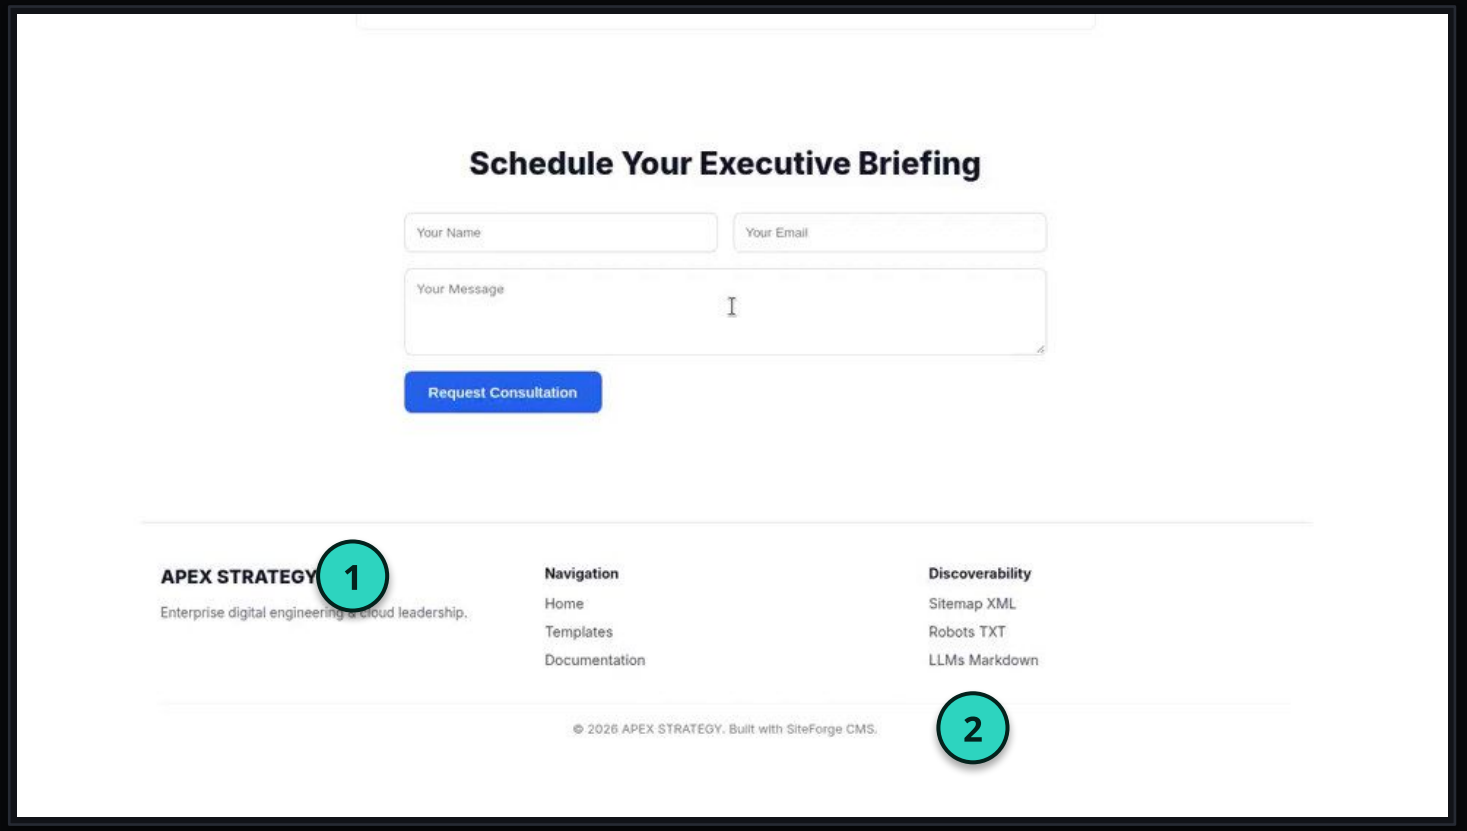

DONE

Brand, domain, site

Scrolling down reaches the footer: “© 2026 APEX STRATEGY”. You now own an apex domain with a live site that ties your brand together.

1. APEX STRATEGY in the footer.
2. © 2026 APEX STRATEGY.
