EdgeTrack

A private analytics workspace, and a small tracker you paste into a page you already publish.

Walkthrough on 3 October 2026. EdgeTrack V1.2. The bakery page is the one this guide follows.

Account

`edgetrack.registersite.com · V1.2`

WHAT THE CARD SAYS

Isolated analytics workspaces on Cloudflare.

A private dashboard, and a drop-in tracker snippet. Other customers cannot see your data.

SIX STEPS

The path, in order

Account, the site, the snippet, the HTML Studio embed, publish, then the analytics sections.

1 Create the account

Create account is the selected tab.

2 Add the website

Add New Website. Sample text is still in the boxes.

3 Copy the snippet

Embed Tracking Script. Then Copy Code.

4 Paste the embed

HTML Studio, the custom-embed section.

5 Publish the page

Export and deploy, then Publish slug.

6 Read the sections

Overview through Exit Analysis.

**Tip**

The signup card and the add-site dialog still show sample placeholders. Replace them with your own.

2

Order: account, add the site, copy the snippet, paste it into the HTML Studio custom embed, publish, then the analytics sections.

SLIDE 3 OF 14

Create the workspace

Create account is selected. The four boxes are still the sample placeholders.

**Tip**

Name, you@company.com, the eight-character box, and workspace-slug are placeholders on this card.

**EdgeTrack**

Isolated analytics workspaces on Cloudflare

Create an account to get a private dashboard and a drop-in tracker snippet. Other customers cannot see your data.

1

Sign in

Create account

Name

you@company.com

Password (8+ characters)

workspace-slug

Dashboard: your-slug.edgetrack.registermysite.com

2

Create workspace

3

"Create an account to get a private dashboard and a drop-in tracker snippet. Other customers cannot see your data."

SLIDE 4 OF 14

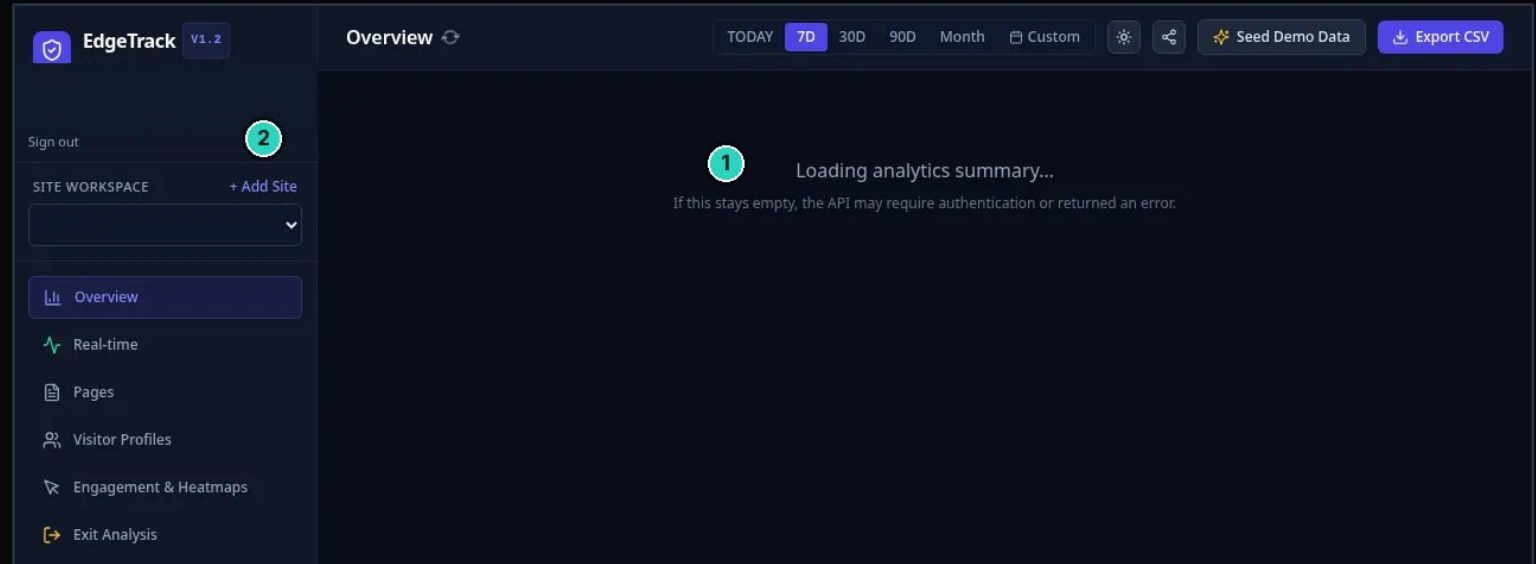

The home screen

Overview is still loading. The workspace menu does not show a site name yet.

Warning

If this stays empty, the API may require authentication or returned an error.

4

"Loading analytics summary..." and "If this stays empty, the API may require authentication or returned an error."

SLIDE 5 OF 14

Add a website

The dialog is Add New Website. The fields still show the sample placeholders.

**Tip**

My SaaS App and app.example.com are sample placeholders. They are not the bakery site.

Add New Website ×

Site Name

My SaaS App 1

Domain

app.example.com 2

Cancel Create Site

5

Placeholders on this dialog: Site Name "My SaaS App", Domain "app.example.com". Buttons: Cancel and Create Site.

SLIDE 6 OF 14

Copy the snippet

Settings. The embed card, the site id, and two privacy rows that are already on.

Tip

Copy Code is the button. The card says the snippet is under 8KB and goes in the head tag.

The screenshot shows the EdgeTrack Settings interface. At the top, there's a 'Settings' header with a '0 visitors live' indicator. On the right, there are icons for settings, sharing, and buttons for 'Seed Demo Data' and 'Export CSV'. The main content area has two sections:

- Embed Tracking Script**: A card with a code snippet and a 'Copy Code' button. A red circle with the number '1' is next to the button. The text says: 'Add this lightweight (< 8KB) tracking code inside your website's <head> tag to begin collecting privacy-conscious analytics instantly.' The code is: `<script async defer data-site-id="et_live_vp9xw3ti" src="https://edgetrack.registermysite.com/tracker.js"></script>`
- EdgeTrack Privacy & Compliance Settings**: A section with two rows:
 - IP Anonymization & Hashing**: Description: 'IP addresses are hashed using SHA-256 + salt before storage.' Status: 'Enabled'. A red circle with the number '2' is next to the 'Enabled' button.
 - Honor Do-Not-Track (DNT) / GPC**: Description: 'Automatically halts beacon collection if visitor has DNT/GPC set.' Status: 'Active'.

6

"Add this lightweight (< 8KB) tracking code inside your website's <head> tag to begin collecting privacy-conscious analytics instantly."

SLIDE 7 OF 14

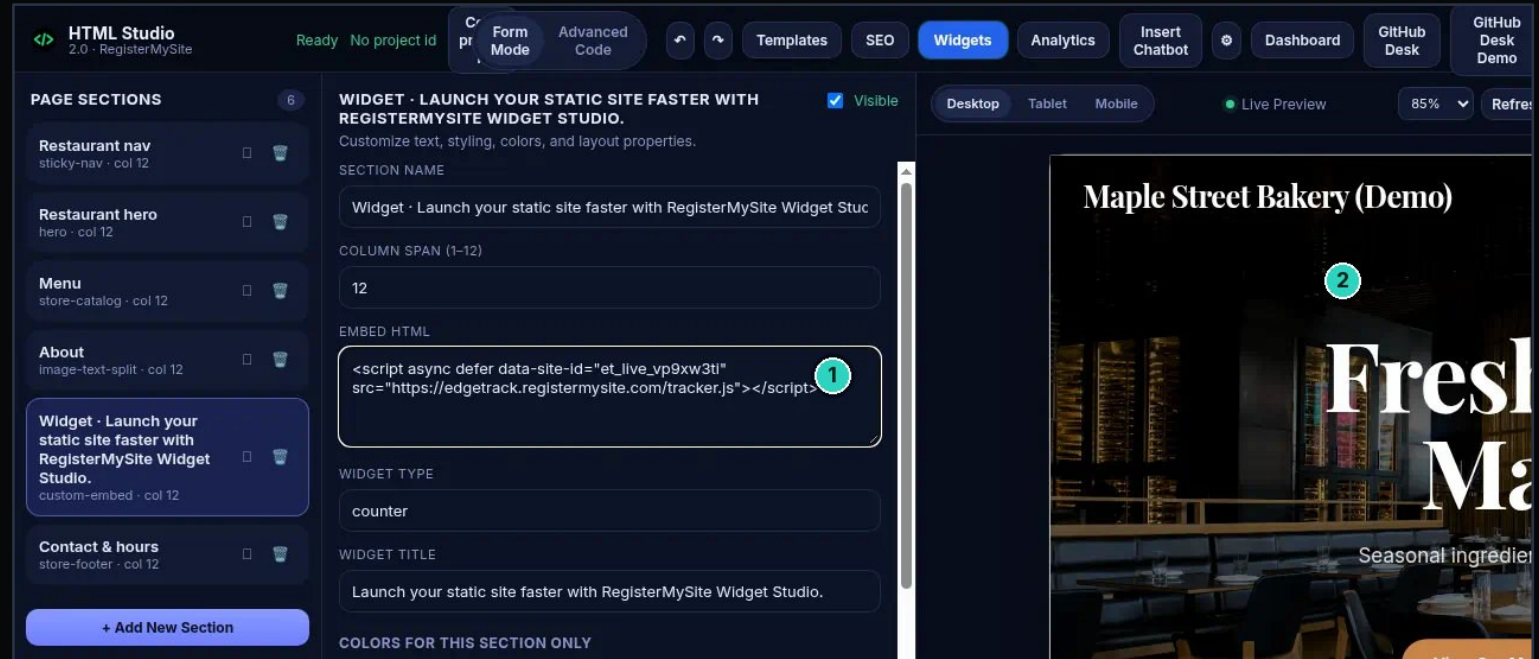

Paste it in HTML Studio

The snippet is in EMBED HTML, on the custom-embed section. This picture is not the publish dialog.

Warning

The header still says Ready and No project id. This picture is the embed, not the publish dialog.

7

EMBED HTML shows the tracker snippet. This capture does not show Export & Deploy, so it does not show a zone or a slug. tracker.js was confirmed on the live page in the walkthrough.

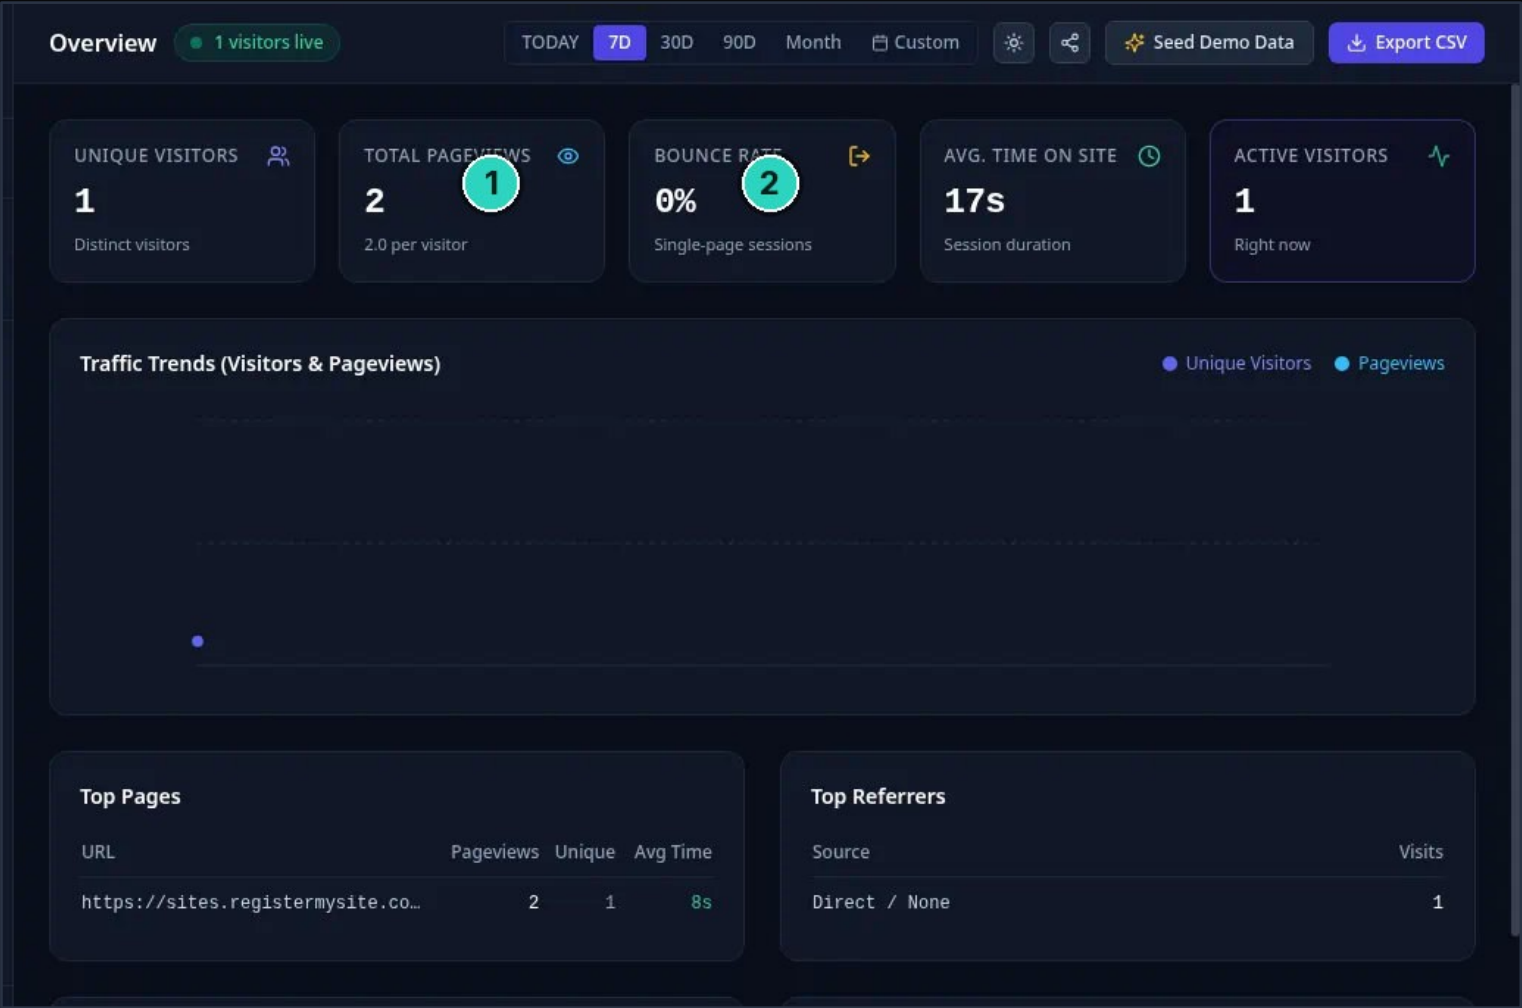

SLIDE 8 OF 14

The 7 day overview

7D is selected. One visitor, two pageviews, and a chart with a single small point.

 **Tip**

Seed Demo Data is in the header. This walkthrough did not press it. The chart is one small point, not a trend.

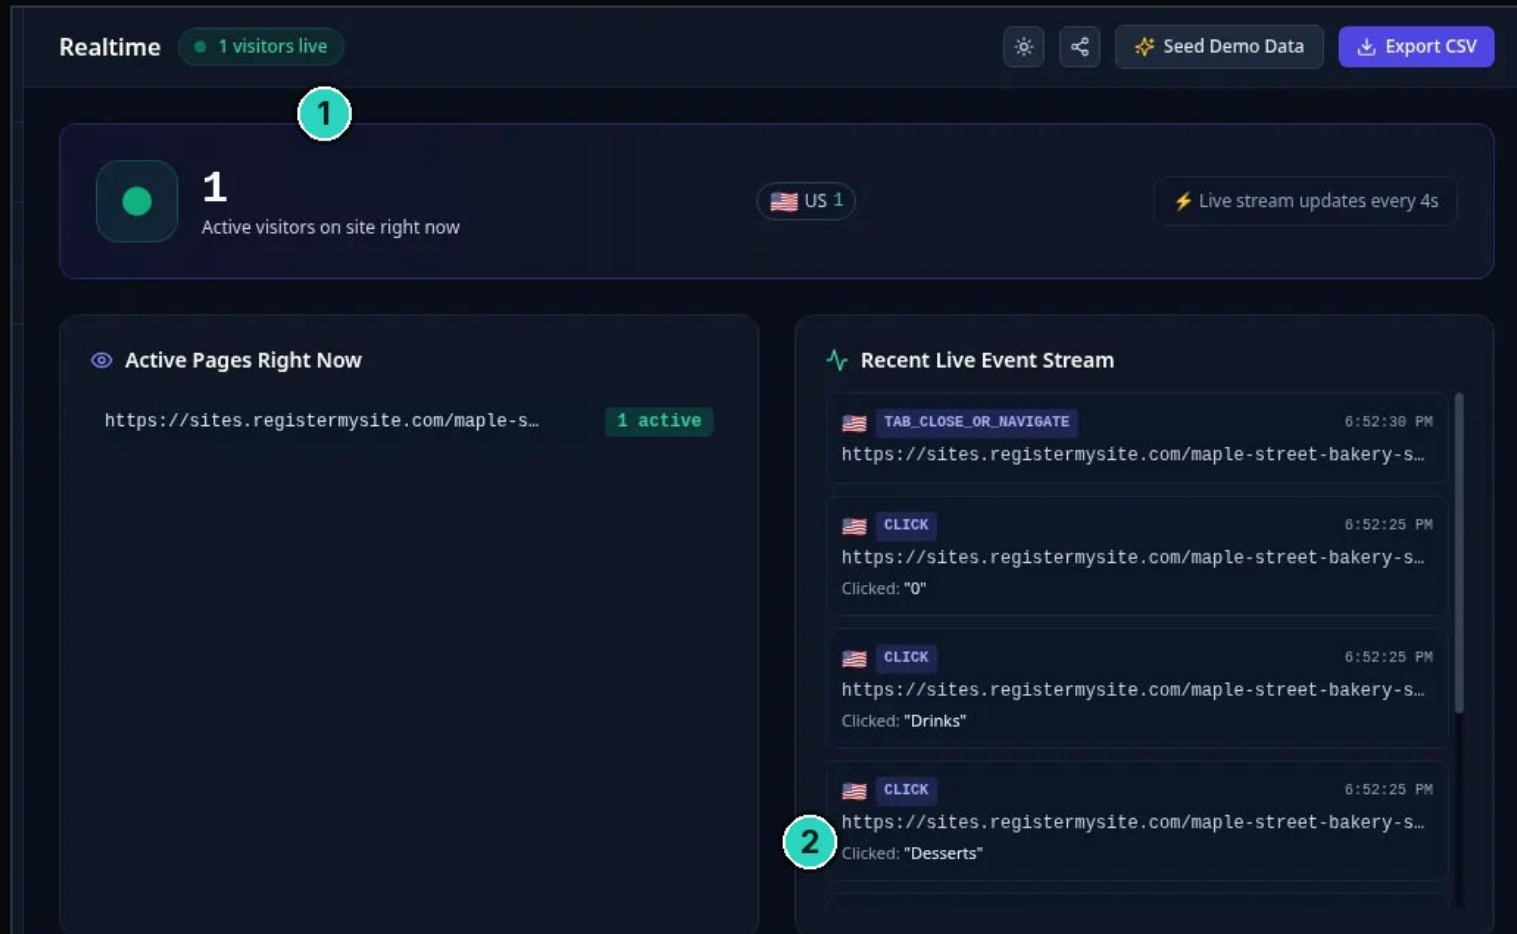

8 7D. 1 visitors live. Unique visitors 1. Pageviews 2, 2.0 per visitor. Bounce 0%. Average time 17s. Active 1. Top page is truncated on screen. Direct / None, 1 visit.

SLIDE 9 OF 14

Real-time

One person on the site, a US flag, and four events you can read. The list can scroll.

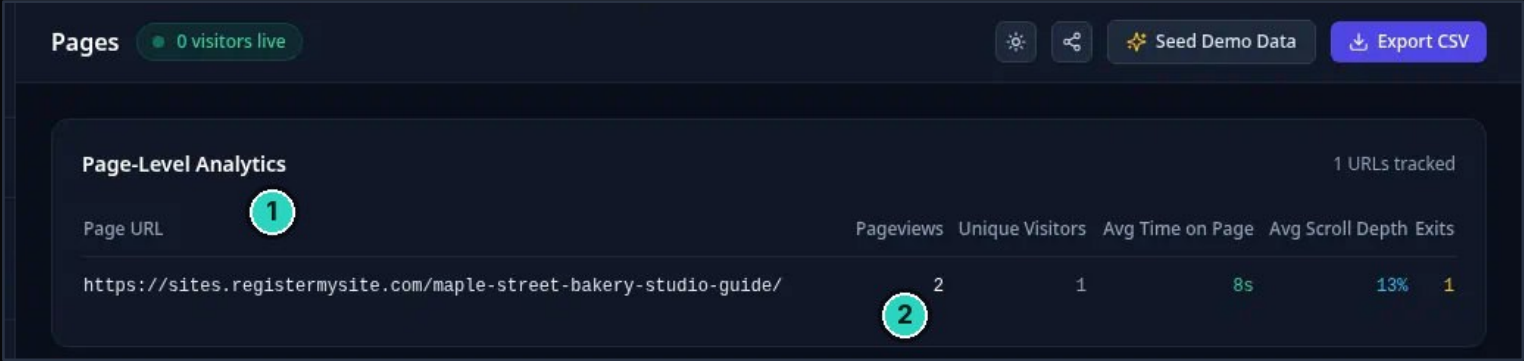

9

"1 Active visitors on site right now." US 1. "Live stream updates every 4s." Events at 6:52:30 PM and 6:52:25 PM, as printed.

SLIDE 10 OF 14

Pages

One URL, written out. Two pageviews, one unique visitor, eight seconds, 13 percent scroll, one exit.

10

1 URLs tracked. https://sites.registermysite.com/maple-street-bakery-studio-guide/ — pageviews 2, unique visitors 1, avg time 8s, avg scroll depth 13%, exits 1.

SLIDE 11 OF 14

Visitor Profiles

The page title is Visitors. One profile, last seen on 3 October 2026.

Warning

Purge is the red button on this row. This capture does not say what it clears.

Visitors

0 visitors live

Visitor Profiles & History

1 visitor profiles

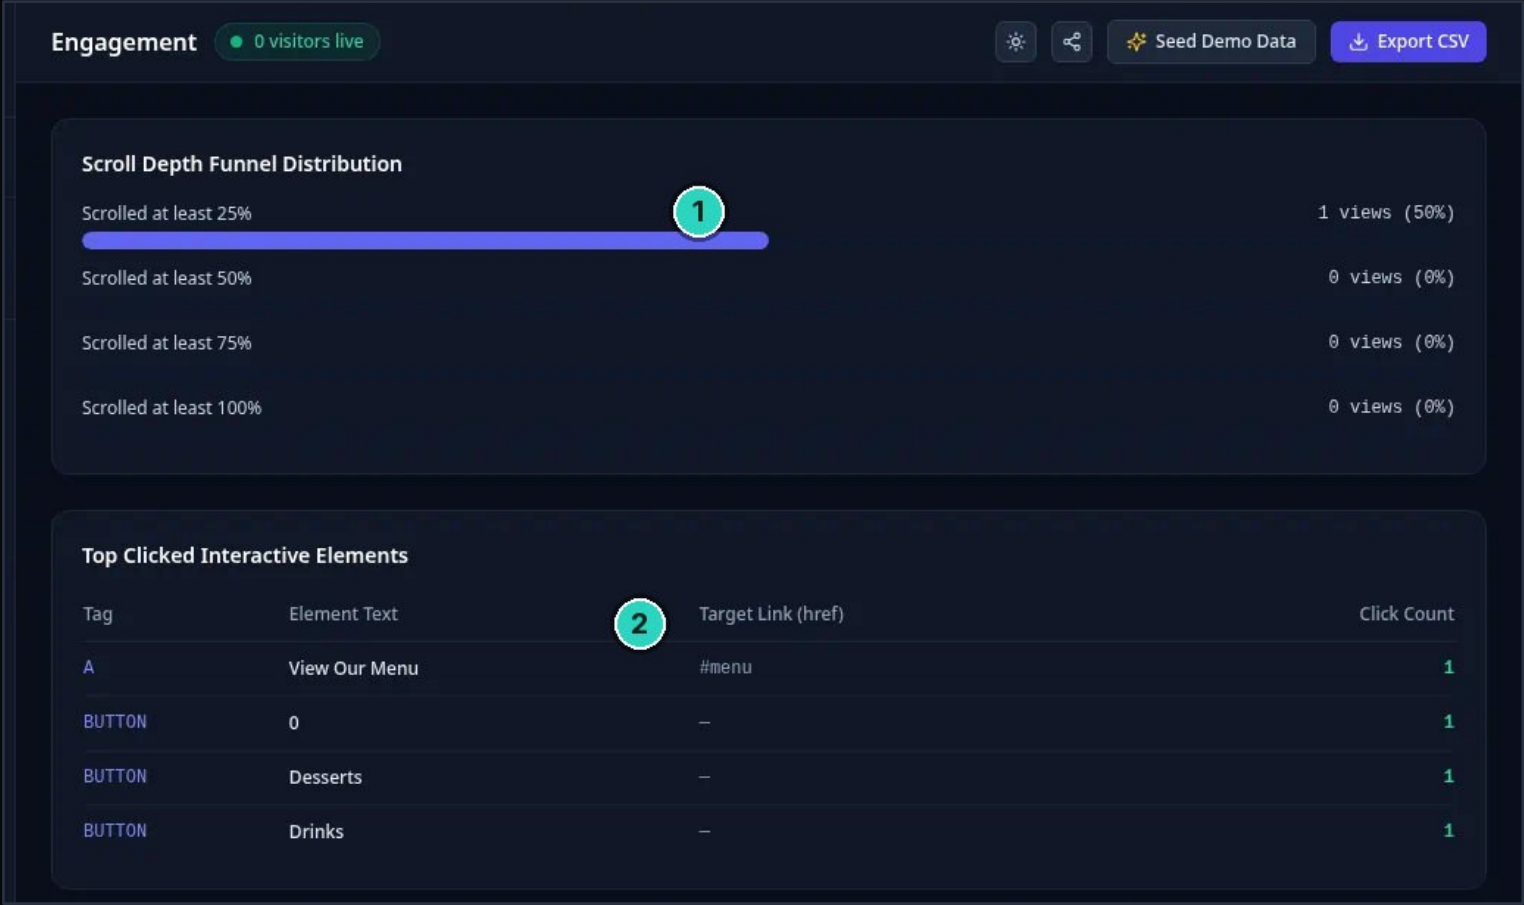

Visitor ID	Location	Device & Browser	Total Visits	Total Pageviews	Last Seen	Actions
v_jy9jkn4umut617qm	Wheaton, US	Desktop • Chrome (Linux)	1	2	10/3/2026	View Timeline Purge

SLIDE 12 OF 14

Engagement & Heatmaps

The nav name is Engagement and Heatmaps. This capture is a scroll funnel and a click table. No heat spots.

Tip
This screen does not draw heat spots. It shows the scroll funnel and the click table.

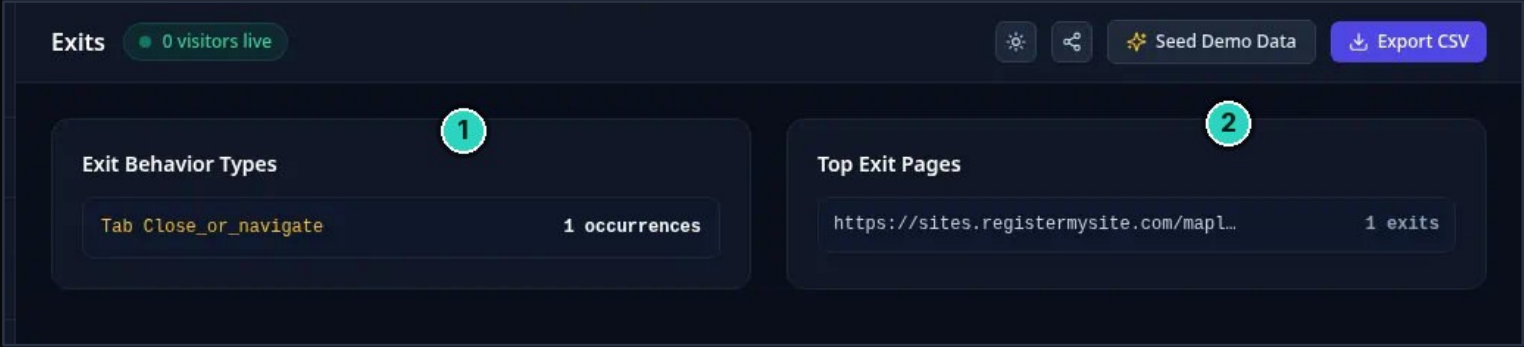

12 Scrolled at least 25%: 1 views (50%). 50%, 75%, and 100%: 0 views (0%). Clicks: View Our Menu #menu, button "0", Desserts, Drinks. One each.

SLIDE 13 OF 14

Exit Analysis

One exit behavior, and one exit page. Both counts are 1.
